NOTIFICATION.

No. 6548 A.—The 26th June 1925.—The following provisional rules to regulate the recruitment by examination of certain of the provincial and other services in Bengal during 1925 are published for general information. Separate announcements will be made of the dates and place of the examination and also regarding the physical standards required of candidates and the medical examination to which they will be subjected—

RULES.

1. **Extent of application.**—These rules apply to the direct recruitment of the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Police Service, the Subordinate Civil Service, Income-tax officers recruited by the Commissioner of Income-tax, Bengal, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.

2. **Method of direct recruitment.**—Direct recruitment for these services will be made on the results of a competitive examination, but Government and the Commissioner of Income-tax, Bengal, reserve the right to appoint by nomination from the list of qualified examinees individual candidates belonging to the backward classes as enumerated on page 189, Part I of the Report of the Calcutta University Commission and to the Anglo-Indian, Indian Christian and Buddhist communities and other minorities if the results of the examination fail to secure the representation of such classes or communities, and in the case of the Upper Division of the Secretariat Clerical Service to fill European and Anglo-Indian vacancies by selection from outside the list. The Commissioner of Income-tax also reserves the right to make appointments by nomination to posts for which special, technical or linguistic qualifications are essential.

3. **Choice of service.**—Each candidate for direct recruitment will be required to specify in his application the service or services for which he desires to compete, placing these in the order of his preference, and the choice thus indicated will be final. Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the various services.

4. **Communal representation.**—The Examining Board will submit to Government separate lists showing (a) the Muhammadan candidates, (b) candidates belonging to the backward classes and other minorities, and (c) all others; and appointments will be made from these lists in the order of merit of the candidates, provided that the proportion of appointments to be filled by the Muhammadan candidates shall in no case be less than one-third if there are qualified candidates available, and that Government reserve the right to nominate any qualified candidate in list (b). In the Upper Division of the Secretariat Clerical Service, the due proportion of Muhammadans is secured by appointing a Muhammadan to every third vacancy in each office if a qualified candidate is available.

5. **Notification of vacancies.**—The number of appointments to be made to these services will be notified as soon as possible after the 1st July. The examination will be held towards the end of the year.

6. **Application for admission to whom addressed.**—A person desiring to be admitted to the examination shall apply, before such date as the Governor in Council may prescribe, to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. Candidates who passed the examination as non-collegiate students shall send in their applications to the Registrar, Calcutta University; candidates from Dacca University and those who graduated from the old Dacca and Jagannath Colleges shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall always be made through their Durbars by persons resident in a State in India.

7. **Time and manner of application.**—Applications shall be made, before such date as the Governor in Council may prescribe, in the form shown in Schedule I, copies of which may be obtained from the heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

8. **Application fee.**—No application will be taken into consideration unless it is accompanied by non-judicial stamps of the value of Rs. 5, or a chalan showing payment into a Government treasury of the sum of Rs. 5. Applications stamped with postage stamps will not be accepted.

9. **Selection Committee.**—The Governor in Council will appoint a Selection Committee. This Committee will be composed of officials and non-officials in equal numbers and be presided over by a high officer of Government.

10. Nomination.—The heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction shall forward to the Selection Committee, before such date as the Governor in Council may prescribe, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character of each candidate so nominated. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service.

11. Selection certificates.—In order to make the appraisement of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate:

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of backward class candidates and other minorities and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach the proportion of one-third.

12. Conditions of eligibility.—The indispensable qualifications of a candidate are—

- (a) that he is a native of the province or has a permanent domicile within the province;
- (b) that he is a natural born subject of His Majesty or of an Indian State;
- (c) that he is more than 22 and less than 25 years of age on the 1st August of the year in which the examination is held;
- (d) that he is a graduate;
- (e) that he is of good character; and
- (f) that he is of sound health, good physique, active habits and free from organic defect or bodily infirmity.

Along with his application a candidate shall submit proof of his age, and certificates from two responsible persons, unconnected with his College or University and not related to him, testifying to his private character. Such certificates must have been written not more than one year prior to the date of application.

13. Particulars of candidates.—The Selection Committee may require such further proof or particulars from the candidates as it may consider necessary, and may make enquiries regarding their character.

14. Eligibility of Government servants.—Unless specially excepted by Government by general or special order, candidates holding substantive appointments in Government service will be debarred from appearing at the examination. Whenever such exception is made, the candidate will be subject to selection by the Selection Committee as if he were duly nominated under rule 10 of these rules.

15. Canvassing.—Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

16. Examination fee and time-table.—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render his name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination.

17. Syllabus of examination and marks.—The examination will be held in the subjects and according to the syllabus as shown in Schedule III, which also indicates the numerical value to be attached to each paper at the examination. As the possession of a knowledge of the provincial vernacular is an essential condition of appointment, candidates whose ordinary spoken and written language is not Bengali will be required to take up translation from English into Bengali and *vice versa* in the compulsory paper.

5. Not less than 90 days before the date fixed for any general election, the Chairman shall publish the register, as revised by him under the last preceding rule, at the Municipal Office and at such other places as he may think fit, or as the Commissioners in meeting may direct.

6. Any person whose name does not appear in the register and who claims the right of voting, may, within 15 days of the publication thereof, apply to the Chairman in writing to have his name added to the register or substituted for any name in the register.

7. Any person whose name is in the register and who considers that any name in the register of voters prepared under rule 4 ought to be omitted, may, within 15 days of the publication of the register, apply to the Chairman in writing to have such name omitted.

8. (1) A list in Form B of every application made under rule 6 or rule 7 shall be published at the Municipal Office within three days of its presentation to the Chairman, fixing a date on which it will be decided. Such date shall not be less than seven days after the publication of the list, or more than 17 days after the presentation of the application to the Chairman.

(2) Intending candidates, as well as voters, who intend to contest applications made under rule 6 or rule 7, shall, on application to the Chairman, be granted permission to inspect such applications.

9. The Chairman shall, not less than 40 days before the date of election, send a letter to every Incorporated Company entitled to vote, requesting it to fill in a form, which shall accompany such letter, with the name of the person authorized to vote on behalf of such Corporation, and to return the same within seven days. Upon receipt of the form, the Chairman shall cause the name stated therein to be entered in the register revised under rule 11, and the person whose name is thus entered shall be deemed to be duly authorized to vote on behalf of the said Corporation. ✓

10. Every application for the revision of the register under rule 6 or rule 7 shall be considered and decided by the Chairman:

Provided that, if the Chairman is a candidate for election, or if the functions of the Chairman are discharged under rule 38, by the Vice-Chairman and he is a candidate for election, every application for the revision of the register for the ward for which the Chairman or the Vice-Chairman is a candidate, shall be considered and decided by a Magistrate deputed for that purpose by the District Magistrate.

11. Any person who is dissatisfied with an order of the Chairman passed on any application made under rule 6 or 7 may, within eight days from the date of the Chairman's order, apply to the Magistrate in writing for an order to have his name inserted in, or a name omitted from the register of voters. The Magistrate shall, after enquiry, make such order as to the insertion or omission of the name as appears to him to be just, and shall forward a copy of his order to the Chairman so as to reach him not less than 32 days before the date of the election; and the Chairman shall, upon receipt of the order, give effect to the same, and such order shall be final.

12. The Chairman shall, not less than 30 days before the date of the election, publish a revised register in the same manner as the original register containing all the alterations or amendments made in such original register by his order or by the order of the Magistrate. The register thus published shall be deemed to be the final register of persons entitled to vote at a general election.

13. (1) This register shall also remain valid for all by-elections:

Provided that, for the purposes of a by-election, any person, whose name is not in the register may, at any time, apply to the Chairman to enter his name therein, and rules 10 and 11 shall be held applicable, as far as possible, to such claim; and if any such application is made not less than 30 days before a by-election, it shall be decided in time for such by-election, but not otherwise.

(2) It shall not be necessary to publish the register or extracts from the register on the occasion of by-elections, provided that the register shall at all times be open to inspection by rate-payers at the Municipal Office, and that all persons whose claims have been admitted under the preceding rules shall be entitled to vote at such elections.

Qualification of Candidates.

14. Any person qualified to vote under these rules, and not disqualified under section 57 of the Act, shall be qualified to be elected a Commissioner.

15. (1) Every person who is a candidate for election shall send his name to the Chairman in writing in Form C, with the necessary particulars filled up, in columns 2, 3, 4 and 5, not less than 28 days before the day fixed for the election, supported by the signatures in columns 6, 7 and 8, respectively, of one elector in each ward in which he proposes to stand who proposes, and of one such elector who seconds his nomination, and of eight electors in each such ward who support his nomination.

(2) Not less than 26 days before the day fixed for the election, the Chairman shall publish a notice in Form D at the Municipal Office, fixing the date on which the nomination papers shall be scrutinized by him, such date being not less than 21 days before the date fixed for the election.

(3) The Chairman shall, not less than 20 days before the date fixed for the election, publish a list of candidates whose nomination papers have been found valid.

16. Any person who applied under rule 15 and whose name is not published in the list of candidates, or who disputes the claim of any other candidate to be on the list published by the Chairman under rule 15, may apply to the Magistrate in writing within two days of the date of publication of the list of candidates for an order to have his name included in or any name omitted from the list. The Magistrate shall make such order as to the insertion or omission of the name as appears to him to be just, and shall forward a copy of his order to the Chairman so as to reach him not less than 12 days before the date of the election; and the Chairman shall, upon receipt of the order, give effect to the same, and such order shall be final.

17. The Chairman shall, not less than 10 days before the date of the election, publish a revised list of candidates in the same manner as the original list, containing all the alterations and amendments made in such original list by the order of the Magistrate under rule 16. The revised list thus published shall be the final list of candidates for the election.

Conduct of Elections.

18. The elections and by-elections shall be held on such dates as may be fixed by the Commissioner of the Division, and notified by him in the *Calcutta Gazette*.

19. When the number of candidates for election in a municipality which has not been divided into wards, or in any ward of a municipality is not greater than the number of vacancies, such candidates shall be deemed to be elected. If the number of candidates exceeds the number of vacancies, a poll shall be held :

Provided that if subsequent withdrawals of candidature at any stage of the election show that the number of vacancies is equal to, or greater than, the number of remaining candidates, the poll notified under rule 20 shall be stopped and the remaining candidates shall be deemed to be elected.

20. (1) The poll shall be held at such time and at such place or places as the Commissioners in meeting, or with their approval the Chairman, may determine; and the place or places at which, and the hours between which, the votes will be recorded shall be notified by beat of drum, and by the publication of notices at the same time as the list of candidates is published under rule 17.

(2) With the object of safeguarding the secrecy of the ballot and of preventing undue crowding, the Chairman shall divide each polling booth into two rooms or compartments, hereafter called the inner and outer compartments. Votes shall be recorded in the inner compartment.

21. After the second hour mentioned in the notice referred to in rule 20 no elector shall be admitted within the building or enclosure within which the election proceedings are being held, but the votes of all duly-registered voters who are already within the building or enclosure shall be recorded.

22. Each voter shall be entitled to vote for the ward in which he ordinarily resides, and for no other, and to give as many votes as there are vacancies for such ward:

Provided that, where the municipality has not been divided into wards, each voter shall be entitled to vote for as many candidates as there are vacancies in the entire number of Commissioners:

Provided also that, he may give all or any number of the votes to which he is entitled to any one candidate.

23. The Commissioners at a meeting shall appoint a polling officer, who is neither himself a candidate for election nor the agent of a candidate, to preside at the election for each ward, or, in the case of a municipality not divided into wards, at each polling centre. When the number of voters in any ward, or in a municipality, is large, the Commissioners at a meeting, or with their approval the Chairman, may provide more than one polling centre for such ward or municipality; and in that case the Commissioners at a meeting shall appoint a polling officer for each such centre and shall cause a notice to be published showing the names and the serial numbers, as given in the voters' register, of persons whose votes will be recorded at any specified polling centre in the ward or the municipality. If the polling officer for any reason fail to attend, the Chairman shall appoint another fit and proper person, who is not himself a candidate, or the agent of a candidate, for election, to take his place. The polling officer shall be assisted by a committee, hereafter referred to as the election committee, consisting of not less than three and not more than five rate-payers of the ward or the municipality, nominated by the Commissioners at a meeting and not themselves candidates or agents of candidates for election. If any member of such committee fail to attend, his place may be taken by another rate-payer, not being himself a candidate for election, or the agent of a candidate, selected by the polling officer.

24. On the morning of the election day the polling officer shall be supplied with a sealed ballot box provided with an aperture for receipt of voting papers, a copy of Register A, and a bound book or books of voting papers serially numbered in foil and counterfoil, one voting paper for each voter entered in Register A.

25. (1) The voting paper shall be printed in English, or both in English and Bengali, in Form E annexed to these rules. The names of candidates in English shall be in alphabetical order. When the voting paper is printed in both the languages the name of a candidate in Bengali shall be printed below that in English in each case.

(2) The name of any candidate, who may have withdrawn his candidature, shall be removed by the polling officer on receipt of intimation of withdrawal in writing.

26. (1) On the day of the election the polling officer shall admit to the outer compartment the candidates and such agents as may be selected by the candidates, to assist in the identification of voters, provided that there shall be present at one time, in addition to the candidates, not more than one agent of each candidate.

(2) Only voters, members of the election committee and such other persons (if any) as the polling officer may be special directions admit, shall be allowed to enter the inner compartment.

(3) No candidate, nor the agent of any candidate, shall be admitted into the inner compartment.

(4) The polling officer shall regulate the number of voters to be admitted at any one time into either the inner or outer compartment.

27. The candidates and their agents shall not speak to or address any intending voter in the polling booth, but may submit to the polling officer objections to a voter on any of the following four grounds:—

- (1) That his name is not on the list of voters of the ward or of the municipality in respect of which the election is being held.
- (2) That his claim to be a certain voter shown on the list of voters is false.
- (3) That he has already voted.
- (4) (Where there is more than one polling centre in a ward or a municipality) that under rule 23 he is not entitled to record his vote at the polling centre, in respect of which the objection is raised.

28. The procedure for recording each voter's vote shall be as follows:—

- (i) There shall be no voting by proxy.
- (ii) As each intending voter enters the outer compartment, his name and his number in the voters' register shall be called out, so that everybody present can hear them.
- (iii) No objection to a voter shall be entertained except on the grounds mentioned in rule 27.
- (iv) Such objection shall be summarily decided by the polling officer, who may for this purpose obtain such evidence as may be available on the spot.
- (v) If after taking such evidence the polling officer is satisfied that the voter is entitled to vote, he shall hand him the foil of a voting paper and allow him to proceed to vote.
- (vi) The number of the voter in the voters' register shall be marked on the counterfoil of the voting paper.
- (vii) The voter on receiving the voting paper shall forthwith be directed by the polling officer or other person (not being a candidate or his agent), deputed by the polling officer for this purpose, to the place set apart for the purpose within the inner compartment and shall there mark a cross for each vote that he gives against the name of the candidate or candidates for whom he intends to vote. He shall then fold the voting paper so as to conceal his vote and shall put the voting paper, so folded up, into the ballot-box. He shall vote without undue delay, and shall quit the polling station as soon as he has put the voting paper into the ballot-box.
- (viii) If the voter is unable to read the voting paper, or to make a cross thereon, the polling officer shall mark the vote on the voting paper according to the direction of the voter. The voter shall then put the voting paper folded up into the ballot-box.

29. It shall be the duty of the polling officer and the election committee to see that votes are recorded with the utmost secrecy, that the number on the voting paper handed over to a voter is not divulged to any candidate or his agent, that only such persons as may be admitted to either compartment under these rules are admitted thereto, and that persons, who have recorded their votes, or against whom objections have been heard and allowed, leave immediately. It shall also be their duty to see that these rules and any special directions given by the polling officer thereunder are strictly observed. J

30. (1) On the conclusion of the poll the ballot-box shall be opened and the votes scrutinized and counted in the presence of the candidates or their agents by the polling officer with the assistance of the election committee and the polling officer shall then and there, subject to the provisions of rules 31 and 32, declare the result of the election and report accordingly to the Chairman, if he is not himself the Chairman.

(2) Where there are more polling centres than one in a ward or a municipality the polling officers shall, on conclusion of the poll, send their ballot-boxes locked and sealed with the municipal seal together with the books and counterfoils and unused foils of voting papers properly sealed up, to the polling officer of one of the ward or municipal centres nominated by the Chairman in this behalf as chief polling officer of the ward or the municipality. The chief polling officer of the ward or the municipality shall forthwith proceed to open the ballot-boxes, scrutinize and count the votes and shall declare the result of the election and submit the report in the manner prescribed in sub-rule (1).

31. Any voting paper which is not duly marked, or on which more crosses are placed than there are vacancies, or on which a cross (or mark) is placed in such manner as to make it doubtful to which candidate the vote has been given, or on which any mark is made by which the voter may afterwards be identified, shall be invalid.

32. If there be an equality of votes for the same vacancy, and if the number of vacancies does not admit of all the candidates who have obtained an equality of votes being elected, the selection of one of the candidates shall be made by lot to be drawn by the polling officer in such manner as he may determine.

33. In the event of any candidate being elected for more than one ward, he shall, within five days from the date of the election, declare which ward he will represent; and if he fail to make such declaration, the Chairman shall forthwith declare the ward which such candidate shall represent, and in either case such candidate shall be held to be elected in the ward in respect of which either of such declaration has been made, and in every other ward, in which the said candidate has been returned, the result of the election shall be determined as if no votes had been recorded for him:

Provided that, if there is no other candidates for whom votes have been recorded to fill the vacancy thus caused, a fresh election shall be held.

34. When the voting papers have been scrutinized and counted, the polling officer or the chief polling officer, as the case may be, shall forthwith replace them in the ballot-box from which they were taken. He shall also seal up the books of counterfoils and unused foils of voting papers. If he is not himself the Chairman, he shall make them over with the ballot-box to the Chairman to be kept in safe custody until the books and the voting papers are destroyed under rule 35.

35. On the expiry of 30 days from the date of the declaration of the result of the election, the voting papers in the ballot-box and the sealed books containing unused voting papers and counterfoils in the Chairman's custody, shall be destroyed in the presence of such Municipal Commissioner or officer as the Commissioners at a meeting may appoint for this purpose.

36. The list of duly returned candidates for the whole municipality shall be forwarded by the Chairman through the District Magistrate to the Commissioner of the Division for publication by him in the *Calcutta Gazette*.

37. When a Municipal Commissioner is after election found to be disqualified under section 57 of the Act, a by-election shall be held to fill his place.

38. In municipalities where the Magistrate is the Chairman, the duties assigned to the Chairman in the foregoing rules shall be discharged by the Vice-Chairman.

39. If, in any case, such a course appears to the local Government to be necessary, it may direct that the Magistrate shall perform all or any of the duties assigned by the foregoing rules to the Chairman or the Commissioners in meeting:

Provided that, the Magistrate shall always perform such duties for the purposes of the first general elections in newly-created municipalities.

General.

40. All disputes arising under these rules shall be decided by the Magistrate, and his decision shall be final. If he finds any material irregularity prejudicing the election he may declare the election void and order a fresh election.

Note.—The offence of personation, of undue influence and of bribery at an election is punishable under sections 171E and 171F of the Indian Penal Code, 1860, as amended by the Indian Elections Offences and Inquiries Act, 1920 (XXXIX of 1920).

41. No person in the employment or pay of the municipality shall, directly or indirectly, engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

42. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable by the Commissioners out of the municipal fund. In the case of a newly-created municipality, in which no municipal fund has been formed, the Magistrate of the district shall advance such sums as may be required; and such sums shall be recoverable from the Municipal Commissioners within six months.

CHITTAGONG, the 14th May 1925.

No. 1252 P.H.—The 4th July 1925.—The following draft of an amendment which the Governor in Council proposes to make in the rules framed under section 35 of the Bengal Agricultural and Sanitary Improvement Act, 1920 (Bengal Act VI of 1920), and published under notification No. 3173 P.H., dated the 30th September 1921, is published for the information of persons likely to be affected thereby:

2. The draft will be taken into consideration on the 1st September 1925, and any objection or suggestion received by the undersigned through the District Magistrate before that date will be duly considered:—

Draft amendment.

After clause (4) of rule 11 of the said rules the following shall be inserted as clause (4a), namely:—

"(4a) how the degree of benefit likely to accrue to the landlord from the improvement of a holding should be estimated and how the cost of such improvement should be apportioned between the landlord and the tenant of such holding. As the landlord is not entitled to an enhancement of rent under section 30 of the Bengal Tenancy Act, 1885, in respect of an improvement made under the Bengal Agricultural and Sanitary Drainage Act, 1920, when the land is held by occupancy raiyats, unless the whole cost of such improvement is borne by the landlord, the Collector shall in such cases exclude from consideration the possibility of an enhancement of rent. In cases where the landlord is entitled to enhancement of rent, such enhancement of rent shall be included in the benefit estimated to be derived by him and deducted from the benefit expected by the tenant."

No. 1250 P.H.—The 4th July 1925.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to make the following rules subject to which the Commissioners of the Comilla Municipality may allow communication pipes to be laid down from the service pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only:—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 84, to lay down communication pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:

Provided that connections shall be permitted in houses below the annual value of Rs. 84 whose owners have already made part payment of the requisite fee before the adoption of the rules:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 200 must be paid to the Commissioners by such owner or occupier for such connection to a municipal main supply pipe or a common communication pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply pipe and extensions from the communication pipe of the one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners in a meeting connections to two or more holdings may be permitted from a common communication pipe. Any such communication pipe must be laid in a street or common passage, and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding;

Provided also that no holding shall have more than one separate connection, but if, in any case, the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings:—

- (a) a brass or gunmetal ferrule inserted in the main supply pipe;
- (b) a galvanized iron communication pipe from the ferrule to the meter;
- (c) a stopcock and its surface box;
- (d) a meter;
- (e) service-pipes from the stop-cock to the taps; and
- (f) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 50 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication pipe referred to in clauses (a) and (b) of rule 7 and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual valuation of holding.		Size of ferrule.	Diameter of communication pipe.	Number of tap.
Rs.	Rs.			
From 84 to	149	1"	1"	2
" 150 "	299	1"	1"	3
" 300 "	499	1"	1"	4
" 500 "	699	1"	1"	5
" 700 "	1,200	1"	1"	6

NOTE.—When the annual valuation exceeds Rs. 1,200, the size of the ferrules, the diameter of the communication pipes and the number of taps shall be in accordance with such scale as the Commissioners in meeting may fix.

11. (1) On every communication pipe a brass or gunmetal stop cock having the same water way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with cast-iron surface box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises except with the permission of the Commissioners to be embodied in an agreement to be executed by the owner of the holding.

14. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least 24 hours before the reading is recorded.

15. (1) Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

RESOLUTION.

TARIFFS.

Simla, the 18th June 1925.

No. 260-T.-(37).—In their Resolution No. 260-T. (15), dated the 27th November 1924, the Government of India accepted the finding of the Tariff Board that the Indian Steel Industry was at that date in need of further protection than was afforded by the duties

imposed by the Steel Industry (Protection) Act (XIV of 1924), and expressed the opinion that bounties not exceeding Rs 50 lakhs in the aggregate should be given to the industry for one year from 1st October 1924 to 30th September 1925. The Government of India also announced at the same time that, before the period indicated expired, the whole matter would be reviewed in the light of the circumstances then prevailing in order that it might be decided before the opening of the Autumn session whether it was necessary or advisable to place fresh proposals before the Assembly. In pursuance of this Resolution, a bounty is being paid, with the sanction of the Assembly, on rolled steel manufactured in India subject to certain conditions. The Tariff Board is now requested to re-examine the whole question in accordance with the undertaking given therein. They will consider—

- (1) whether in view of the conditions of the industry and of the probable level of prices of steel articles, the protection afforded by the Steel Industry (Protection) Act to the manufacture of the articles enumerated therein should be supplemented beyond the 30th September 1925.
- (2) If so, for which of those articles is further assistance required and in what form and for what period should it be given.

2. Firms or persons interested, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary, Tariff Board, 1, Council House Street, Calcutta.

ORDER.—Ordered that a copy of the above Resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director General of Commercial Intelligence, the Indian Trade Commissioner in London and to the Secretary, Tariff Board.

Ordered also that it be published in the *Gazette of India*.

10. Military Estates Officer of the Cantonment, in consultation with the Collector, shall from time to time compile standard tables of rent suitable for application to building sites and agricultural land respectively in the cantonment, having regard to the situation of the site, the nature of the soil, and the rates charged on building sites in neighbouring municipalities, or on adjacent agricultural lands.

Standard tables of rent.

11. The executive management of any land in Class "B" (3), (4) or (5) may be entrusted to the Cantonment Authority subject to the following conditions, namely:—

Management of land by Cantonment Authority.

- (1) that such transfer of management confers upon the Cantonment Authority no proprietary rights in, and no power to sell, exchange or give away, the land, and that the Government of India may impose such restrictions as they consider necessary in the public interest on the use or occupation of any particular areas of land so entrusted to the management of the Cantonment Authority;
- (2) that the Cantonment Authority shall have no power to occupy or use the land for the purposes of the Act or for its own purposes without the sanction of the Government of India; but that land required for the aforesaid purposes shall be transferred to Class "C" and vested in the Cantonment Authority by the Government of India in accordance with the provisions of rule 9;
- (3) that when the Government of India desire to sell or otherwise permanently dispose of any of the land or to transfer it to Class "A" or to Class "B" (1) or (2), they reserve the right to withdraw such land from the management of the Cantonment Authority and dispose of it as they think fit, without paying any compensation therefor to the Cantonment Authority: provided that the Cantonment Authority shall be given an opportunity of expressing its opinion on the proposed withdrawal and any objections it may have to offer shall be taken into consideration;
- (4) that suits affecting the proprietary rights in the land shall be brought by or against the Secretary of State and not by or against the Cantonment Authority; but the cost of such litigation shall be a legitimate charge on the Cantonment Fund;
- (5) that the Cantonment Authority shall be liable to pay rent to the Government of India, at half the lowest rates fixed respectively for building sites or agricultural land under rule 10, for all land in Class "B" (4) or (5) so long as such land remains unoccupied;
- (6) that one quarter of the annual rent payable for the land, when disposed of by lease, and one quarter of the premia on such leases shall ordinarily be credited to the Government of India and the remainder to the Cantonment Fund; provided that the Government of India may vary the proportion of the income from land payable to the Cantonment Fund in any particular cantonment, when they are satisfied that the ordinary proportion of three quarters is, when combined with the income which the Cantonment Authority might reasonably be expected to derive from other sources, either insufficient to enable the Cantonment Authority to maintain a fair standard of municipal administration, or such as to enable the Cantonment Authority to incur expenditure greater than is strictly necessary for the maintenance of such a standard of administration or to reduce the incidence of taxation below a reasonable level;
- (7) that the Government of India shall be entitled to resume direct management of the land, or of any part thereof, or to reduce the proportion of the income therefrom payable to the Cantonment Fund in cases in which in the opinion of the Government of India there has been serious mismanagement on the part of the Cantonment Authority;
- (8) that it shall not be obligatory on the Cantonment Authority to assume the management of more land than it thinks fit on these terms.

12. The executive management of all land in the cantonment which has not been entrusted to the management of the Cantonment Authority, or which has been resumed by the Government of India under clause (7) of rule 11, or which does not vest in the Cantonment Authority, shall be entrusted to the Military Estates Officer of the cantonment: provided that the management of land actually occupied by any Department of the Government or Railway Administration shall vest in that Department or Administration in the absence of any direction to the contrary from the Government of India.

13. The following conditions shall apply to the disposal of land entrusted to the management of the Cantonment Authority under rule 11:—

(1) The Cantonment Authority shall maintain a register, in the form prescribed in schedule III, of all land in Class "B" (3), (4) and (5) which has been entrusted to its management. This register shall be known as the Cantonment Authority's Land Register, and shall be prepared annually with effect from April 1st so as to show the annual demand in the shape of rent from building sites and other land.

(2) Building sites shall ordinarily be disposed of by lease for a minimum period of thirty years in the first instance renewable at the option of the lessee at equal intervals up to a maximum period of ninety years. The lease shall be subject to an annual rent which shall be fixed in the manner prescribed in clause (6), and which shall be liable to revision at each renewal of the lease. An initial premium shall be charged on the lease and the lease shall be put up to public auction for sale to the person who agrees to pay the highest amount as premium.

(3) Building sites shall be divided into plots of suitable sizes in two classes:—

I.—Plots of one quarter of an acre and over.

II.—Plots of less than one quarter of an acre.

An extract from the Cantonment Authority's Land Register showing the available building sites classified accordingly shall be open to inspection by the public in the Cantonment Office.

(4) Applications for building sites shall be submitted to the Executive Officer of the Cantonment in the printed form prescribed in schedule IV. Every application shall specify the situation of the land required, the exact purpose for which it is wanted and the area of land in the cantonment, if any, already held by the applicant; and shall be accompanied by a ground plan of the proposed building prepared at the cost of the applicant. Subject to any directions and by-laws made by the Cantonment Authority under section 181 or section 186 of the Act, applications for sites in class I shall also be accompanied by detailed plans and specifications of the proposed building; and applications for sites in class II shall be accompanied by a general description of the proposed building.

(5) The Executive Officer of the cantonment shall lay the application without delay before the Cantonment Authority. The Cantonment Authority may reject the application for reasons to be recorded in writing, and an entry shall thereupon be made accordingly on the application form and the form shall be filed in the manner prescribed by clause (14) (b).

(6) If the Cantonment Authority resolves that the application may be approved, the Executive Officer shall proceed to have the site surveyed and demarcated, if necessary, and with reference to the standard table of rates prepared under rule 10, shall fix the particular rate of annual rent to be charged and such reserve price for the premium on the lease as may appear to be reasonable. In no case shall the reserve price so fixed be disclosed to the public.

(7) The reserve price shall be calculated so as to include the cost, if any, of surveying and demarcating the site and a proportion of any expenditure that may have been incurred in preparing and laying out land, including the site under application, for building purposes. The cost of such survey and demarcation shall be deposited by the applicant and shall be deducted from the price eventually realised as premium and repaid to the depositor.

(8) The Executive Officer shall then publish a notice, in the form prescribed in schedule V, stating the date on which, the time and place at which, and the conditions under which, the lease of the site applied for will be sold.

(9) On the date and at the time and place appointed the Executive Officer shall proceed to sell the lease by auction to the person who agrees to pay the highest amount as premium; provided that in no case shall the lease be sold unless the reserve price fixed under clause (6) has been reached.

(10) The successful bidder shall be required to deposit immediately 10 per cent. of the amount of his bid and to sign an agreement consenting to forego the deposit in case the balance of the price is not paid within thirty days of the confirmation of the auction.

Deposit by successful bidder.

(11) The Executive Officer shall report the result of the auction immediately to the Cantonment Authority for its approval. Thereafter the proceedings shall be forwarded to the Collector for his concurrence, and if the Collector concurs, the sale shall be deemed to be duly confirmed: provided that if the estimated market value of the site exceeds Rs. 5,000, the approval of the Officer Commanding-in-Chief, the Command, and if it exceeds Rs. 10,000, the approval of the Government of India shall also be required before the sale shall be deemed to be duly confirmed.

Confirmation of auction.

Explanation.—For the purposes of this clause, the market value shall be estimated, as far as possible, on the basis of actual sales of unoccupied land for building purposes in the locality, but if the market value cannot be estimated on such basis, it shall be taken to mean 20 times the annual value of the site. In calculating the annual value, the rent fixed, as well as the premium realised by the auction, shall be taken into account.

(12) In exercise of the powers conferred on him by clause (11) the Collector, before expressing his concurrence, shall satisfy himself,

Powers of Collector.

(a) that the whole proceedings have been conducted in strict accordance with the provisions of these rules, and

(b) that the annual rent and the price realized for the premium on the lease at the auction is reasonable.

If he is not satisfied on either of these points, he shall return the proceedings to the Cantonment Authority with a recommendation that the proceedings be cancelled; and thereupon fresh proceedings shall be taken and all the foregoing provisions of this rule shall apply to such fresh proceedings.

(1) Where the insurance business or any part of the insurance business of an insurance company has been transferred to another insurance company under an arrangement in pursuance of which the first-mentioned company (in this section referred to as the subsidiary company) or the creditors thereof has or have claims against the company to which such transfer was made (in this section referred to as the principal company), then, if the principal company is being wound up by or under the supervision of the Court, the Court shall (subject as hereinafter mentioned) order the subsidiary company to be wound up in conjunction with the principal company, and may by the same or any subsequent order appoint the same person to be liquidator for the two companies, and make provision for such other matters as may seem to the Court necessary, with a view to the companies being wound up as if they were one company.

(2) The commencement of the winding up of the principal company shall, save as otherwise ordered by the Court, be the commencement of the winding up of the subsidiary company.

(3) In adjusting the rights and liabilities of the members of the several companies between themselves, the Court shall have regard to the constitution of the companies, and to the arrangements entered into between the companies, in the same manner as the Court has regard to the rights and liabilities of different classes of contributories in the case of the winding up of a single company, or as near thereto as circumstances admit.

(4) Where any company alleged to be subsidiary is not in process of being wound up at the same time as the principal company to which it is alleged to be subsidiary, the Court shall not direct the subsidiary company to be wound up unless, after hearing all objections (if any) that may be urged by or on

behalf of the company against its being wound up, the Court is of opinion that the company is subsidiary to the principal company, and that the winding up of the company in conjunction with the principal company is just and equitable.

(5) An application may be made in relation to the winding up of any subsidiary company in conjunction with a principal company by any creditor of, or person interested in, the principal or subsidiary company.

(6) Where a company stands in the relation of a principal company to one insurance company, and in the relation of a subsidiary company to some other insurance company, or where there are several insurance companies standing in the relation of subsidiary companies to one principal company, the Court may deal with any number of such companies together or in separate groups, as it thinks most expedient, upon the principles laid down in this section.

Return of deposits.

50. When an insurance company is being wound up, the liquidator or liquidators shall apply to the Court for an order for the return of the securities deposited by the company under this Act, and the Court shall, on such application, order the return of the deposit subject to such terms and conditions as it shall direct.

Valuation of policies in case of winding up.

51. Where an insurance company is being wound up, the value of a policy of any class or of a liability under such a policy requiring to be valued in such winding up shall be estimated in the manner, applicable to policies and liabilities of that class, provided by the Sixth Schedule.

Rules of valuation.

52. The rules in the Sixth Schedule shall be of the same force, and may be repealed, altered, or amended, as if they were rules made in pursuance of section 246 of the Indian Companies Act, 1913, and rules may be made under that section for the purpose of carrying into effect the provisions of this Act with respect to the winding up of insurance companies.

VII of 1913

Notice of policy values.

53. Where an insurance company is being wound up, the liquidator, in the case of all persons appearing by the books of the company to be entitled to or interested in policies granted by the company, shall ascertain the value of the liability of the company to each such person, and shall give notice of such value to those persons in such manner as the Court may direct, and any person to whom notice is so given shall be bound by the value so ascertained unless he gives notice of his intention to dispute such value in such manner and within such time as may be specified by a rule or order of the Court.

Power of Court to reduce contracts of life insurance companies.

54. The Court, in the case of a life insurance company which has been proved to be insolvent, may, if it thinks fit, in place of making a winding up order, reduce the amount of the contracts of the life insurance company upon such terms and subject to such conditions as it thinks just.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide for the Regulation of Insurance Companies operating in India.

There are two Acts at present in force in India relating to Insurance Companies. One is the Indian Life Assurance Companies Act VI of 1912, and the other is the Provident Insurance Societies Act V of 1912. It is considered that the law should regulate all forms of insurance business carried on in India. It is proposed, therefore, to repeal Act VI of 1912 and to replace it by this Bill. As will be seen from the definition of "Insurance Company" in clause 2 (i), the Bill will apply to every Company which carries on, or intends to carry on, any class of insurance business in British India, either directly or indirectly through an Agent. Companies registered under the Provident Insurance Societies Act, have been excluded from the scope of the Bill, but it is proposed to amend section 3 of this Act with the object of imposing the same limits as are at present prescribed in the case of life assurance business on every kind of insurance business carried on by Provident Insurance Societies.

In framing the Bill, it has been provisionally decided to continue the policy of the Indian Life Assurance Companies Act VI of 1912, and to rely for the protection of the public mainly on a policy of allowing no Insurance Company to carry on business in India, unless and until it has paid a deposit to Government. These deposits should prevent the establishment of mushroom Companies. In addition, it is proposed to insist on the fullest measure of publicity in regard to the working of each Company, in order that the public may judge for themselves whether it is worked on sound and prudent lines. It is also proposed to tighten the control of Government over Insurance Companies in some respects.

NOTES ON CLAUSES.

Clause 2 (f).—The definition of 'dividing society' is taken from the existing rules issued under the Indian Life Assurance Companies Act, VI of 1912. Under clause 55 (2) (c) power is taken to prescribe by rule the additional statements of business to be prepared by such societies and the manner in which such statements shall be furnished to the Governor General in Council.

Clause 2 (r).—The definition of "workmen's compensation insurance business" contains no reference to the issue of, or the undertaking of liabilities under, policies. It is provisionally thought necessary to bring within the scope of the Act associations of employers which, without issuing policies or undertaking liabilities under policies of insurance, carry on such business for the mutual insurance of their members. Such associations may be excused from making deposits under clause 12, and may be exempted from other provisions of the Bill under clause 57.

Clause 9.—It is thought that the practice which it is proposed to prohibit is objectionable and should not be allowed.

Clause 10.—It is proposed that every Insurance Company carrying on, or intending to carry on, business in British India should make a deposit of Government securities, and that the exemption from this obligation hitherto allowed by sections 32 and 33 of Act VI of 1912 to Assurance Companies carrying on life assurance business in the United Kingdom should be withdrawn. The main purpose of the deposit is to prevent the growth of mushroom companies. On the other hand, it is not intended to prevent the establishment of new and sound companies. The amount of the deposits has been fixed with reference to these two considerations.

Clause 11.—It is proposed that Life Insurance Companies constituted in British India should be allowed to make the deposit in five annual instalments. The concession is based on the provisions of section 4 of Act VI of 1912. It is not considered necessary that the same concession should be allowed to Companies carrying on other kinds of insurance business.

Clause 12.—Power is taken to exempt mutual societies, with or without conditions, from the obligation to make deposits. There are a number of Indian Mutual Companies which could not, without great hardship, make deposits.

Clause 15.—The object of the clause is to protect deposits from attachment under any judgment obtained by a creditor of the Company. It is believed that deposits under the English Act of 1909 are not liable to attachment.

Clauses 18 and 19.—These clauses deal with the question of separate accounts and funds for each class of insurance business carried on by a Company. Separate funds and accounts are made obligatory in respect of life insurance business and workmen's compensation insurance business transacted in India. But joint accounts can be allowed in the case of other kinds of insurance business. The proposals are in accordance with English law on the subject.

Clause 22.—Sub-clauses (1) and (2) repeat foot-notes (2) and (3) to Form A in the First Schedule to Act VI of 1912. Sub-clause (3) prescribes the supply of information which will be a valuable index to growth of the insurance habit in India.

Clause 23 (1).—In the case of accident insurance business and workmen's compensation insurance business, where an outstanding claim frequently takes the form of a periodical payment extending over a long period, it is important that full particulars of such claims and the liability estimated in respect thereof should be appended to the Revenue Account. The form of statement will be prescribed by rules under the Act. For similar statements, compare Forms C and D in the Fourth Schedule to the English Assurance Companies Act, 1909.

Clause 23 (2).—Leading Fire Insurance Companies usually make it a rule that the reserve for unexpired risks should not be less than 40 per cent. of the premium income of the year. The practice is a wholesome one, and this clause is designed to encourage it.

Clauses 24 (1) and (2).—These two clauses are modelled on foot-note 2 to the form of balance sheet in the Third Schedule of Act VI of 1912. It is considered important, for the protection of the public, that investments should be properly valued in the balance sheet.

Clause 24 (3).—This clause is taken from foot-note 3 to the form of balance sheet in the First Schedule of Act VI of 1912.

Clause 24 (4).—Compare section 18 (1) of the English Industrial Assurance Act of 1923. In regard to Life Insurance Companies in India, the practice enjoined by this clause is already obligatory under rule 14 of the rules issued under Act VI of 1912.

Clause 24 (5).—This clause is modelled on rule 8 (c) of the rules issued under Act VI of 1912.

Clause 24 (6).—Under Act VI of 1912, Life Assurance Companies have to submit this information in a separate statement to be submitted along with their Revenue Account.

See also clause 29 (b).

Clause 24 (7).—See foot-note 1 to the form of balance sheet in the Third Schedule of Act VI of 1912.

Clause 25.—See section 8 of Act VI of 1912. Sub-clause (2) corresponds to rule 5 of the rules issued under the above Act.

Clause 26.—The forms prescribed in the Schedule to the Bill are modelled on those prescribed by the English Assurance Companies Act of 1909. It is sufficient, therefore, that Companies constituted outside British India, to which the above Act applies, should submit copies of the returns which they are required to send to the Board of Trade. See section 33 of Act VI of 1912. But additional statements relating to the business of the Company in India are prescribed.

Clause 29 (d) prescribes that a company carrying on workmen's compensation insurance business in British India must submit a revenue account in respect of such business. Compare Form D in the first schedule to the English Assurance Companies Act, 1909.

Clause 30.—Sub-clause (1) is taken from section 11 (2) of Act VI of 1912. Sub-clauses (2) and (3) are modelled on section 16 of Industrial Assurance Act, 1923.

Clause 31 (1).—The provisions of section 37 (1) of Act VI of 1912 have not been repeated in the Bill. No use has ever been made of these provisions. The clause is modelled on section 37 (ii).

Clause 32.—This clause is new and represents an important departure. It enables Government to deal with a Life Insurance Company whose returns show it to be on the verge of insolvency. Under section 22 (b) of Act VI of 1912, which is repeated in clause 48 (c) of this Bill, the Governor-General in Council may apply to the court to have a Company, which appears to him to be insolvent, wound up. But there may be cases in which strong actuarial advice may restore an unsound Company to a strong and flourishing condition, and it is proposed by this clause to give the Governor-General in Council power to require a Life Insurance Company, in cases where there is reason to doubt its ability to fulfil its contracts, to submit its affairs to actuarial examination.

Clause 39.—The forms in which Insurance Companies have to submit their returns to the Governor-General in Council have been carefully drawn up in order that these returns may contain essential information. It is a necessary safeguard that this information should also be made available to the public.

Clause 41.—The procedure in regard to amalgamation has been slightly simplified. Compare section 20 of Act VI of 1912.

Clause 47.—See section 34 of Act VI of 1912. The clause makes it plain that the default shall be a ground on which any shareholder or policyholder may apply, at the

expense of the Company, for a winding order. Section 34 of Act VI of 1912 does not say who is to approach the court for a winding up order.

Clause 54.—See section 26 of Act VI of 1912.

Clause 55 (2) (f).—This matter is dealt with by rule 15 of the rules issued under Act VI of 1912. In order to prevent abuses, it is considered necessary for the Governor-General in Council to have power to prescribe the extent to which the premiums referred to in the clause may be treated as assets.

Clause 57.—Taken from section 41 of Act VI of 1912.

Clause 59.—The effect of section 3 of the Provident Insurance Societies Act, 1905, is to limit the extent to which such societies might carry on life insurance business. The amendment proposed is designed to limit the extent to which Provident Insurance Societies may carry on any kind of insurance business.

Notes on the Schedules.

Forms A, B, C and D are based on the corresponding forms of the English Act of 1909.

Form A in the draft does not follow the form in the English Act by requiring the following items to be shown separately for business within and out of the United Kingdom.

Premiums,
Consideration for annuities,
Claims by death,
Claims by maturity,
Surrenders,

Annuities,
Bonuses in cash,
Bonuses in reduction of premium,
Commission.

By the provisions of clauses 22 (3) and 29 (a), however, the Indian premium income must be stated separately not only for life insurance but for all classes of insurance business. As the consideration for immediate annuities can be ascertained from the returns under the new 5th Schedule it is not considered necessary to have a separate entry for that item as in the English Act.

Notes 1 and 2 to form A in the English Act are covered by the foot-note to form A in the draft Bill. Note 3 is covered by the provisions of clause 22 (1). Note 4 by clauses 22 (2) and 24 (5). Note 5 by clause 27. Note 6 by clause 55 (2) (g).

In Form D of the 1st Schedule to the draft Bill the amount of the outstanding claims is included in the fire insurance fund instead of being shown separately in the balance sheet as in the English Act.

In the form of balance sheet shown in the 3rd Schedule claims under life insurance policies have been split up into claims admitted but not paid and claims intimated but not admitted. On the assets side of the balance sheet loans and mortgages are included under the general heading of investments. The heads under which many of the other investments have to be entered have been re-arranged to suit the conditions of Indian companies.

Note 1 to the form of balance sheet in the English Act is dealt with in clause 24 (7) of the draft Bill. Note 2 by the foot-note to the form of balance-sheet in the draft Bill. Note 3 by clauses 24 (1) and 24 (2). Note 4 by clause 20 and the Rule to be framed under clause 55 (2) (b).

The draft 4th Schedule contains under questions 8 and 17 items which under the English Act are dealt with under headings 10 and 11 of the 5th Schedule to that Act. It also includes several items previously dealt with by the Rules issued under the Indian Life Assurance Act of 1912.

The principal changes compared with the English Act are under draft questions Nos. 6, 8, 11, 13, 14, 17 and 19. Also in the foot-notes to the two forms referred to in question No. 16. The forms corresponding to forms C and D of the 4th Schedule to the English Act are provided for in draft clause 23 (1).

No reference has been made in the Bill to bond investment business as it is not intended to treat such business as insurance business. There are in Madras Presidency a very large number of persons or associations known as Nidhis who transact bond investment business on a small scale and in such a way that it would not be feasible to bring it under the operation of this Act.

The 6th Schedule in the Bill corresponds to the 6th Schedule of the English Act.

The draft 7th Schedule corresponds to statement D of the Indian Life Assurance Act of 1912.

The 7th Schedule of the English Act is covered by clause 53 of the draft Bill.

No schedule has been prepared corresponding to the 8th Schedule to the English Act.

Clause 22.—Sub-clauses (1) and (2) repeat foot-notes (2) and (3) to Form A in the First Schedule to Act VI of 1912. Sub-clause (3) prescribes the supply of information which will be a valuable index to growth of the insurance habit in India.

Clause 23 (1).—In the case of accident insurance business and workmen's compensation insurance business, where an outstanding claim frequently takes the form of a periodical payment extending over a long period, it is important that full particulars of such claims and the liability estimated in respect thereof should be appended to the Revenue Account. The form of statement will be prescribed by rules under the Act. For similar statements, compare Forms C and D in the Fourth Schedule to the English Assurance Companies Act, 1909.

Clause 23 (2).—Leading Fire Insurance Companies usually make it a rule that the reserve for unexpired risks should not be less than 40 per cent. of the premium income of the year. The practice is a wholesome one, and this clause is designed to encourage it.

Clauses 24 (1) and (2).—These two clauses are modelled on foot-note 2 to the form of balance sheet in the Third Schedule of Act VI of 1912. It is considered important, for the protection of the public, that investments should be properly valued in the balance sheet.

Clause 24 (3).—This clause is taken from foot-note 3 to the form of balance sheet in the First Schedule of Act VI of 1912.

Clause 24 (4).—Compare section 18 (1) of the English Industrial Assurance Act of 1923. In regard to Life Insurance Companies in India, the practice enjoined by this clause is already obligatory under rule 14 of the rules issued under Act VI of 1912.

Clause 24 (5).—This clause is modelled on rule 8 (c) of the rules issued under Act VI of 1912.

Clause 24 (6).—Under Act VI of 1912, Life Assurance Companies have to submit this information in a separate statement to be submitted along with their Revenue Account.

See also clause 29 (b).

Clause 24 (7).—See foot-note 1 to the form of balance sheet in the Third Schedule of Act VI of 1912.

Clause 25.—See section 8 of Act VI of 1912. Sub-clause (3) corresponds to rule 5 of the rules issued under the above Act.

Clause 29.—The forms prescribed in the Schedule to the Bill are modelled on those prescribed by the English Assurance Companies Act of 1909. It is sufficient, therefore, that Companies constituted outside British India, to which the above Act applies, should submit copies of the returns which they are required to send to the Board of Trade. See section 33 of Act VI of 1912. But additional statements relating to the business of the Company in India are prescribed.

Clause 29 (d) prescribes that a company carrying on workmen's compensation insurance business in British India must submit a revenue account in respect of such business. Compare Form D in the first schedule to the English Assurance Companies Act, 1909.

Clause 30.—Sub-clause (1) is taken from section 11 (2) of Act VI of 1912. Sub-clauses (2) and (3) are modelled on section 16 of Industrial Assurance Act, 1923.

Clause 31 (1).—The provisions of section 37 (1) of Act VI of 1912 have not been repeated in the Bill. No use has ever been made of these provisions. The clause is modelled on section 37 (ii).

Clause 32.—This clause is new and represents an important departure. It enables Government to deal with a Life Insurance Company whose returns show it to be on the verge of insolvency. Under section 22 (b) of Act VI of 1912, which is repeated in clause 48 (c) of this Bill, the Governor-General in Council may apply to the court to have a Company, which appears to him to be insolvent, wound up. But there may be cases in which strong actuarial advice may restore an unsound Company to a strong and flourishing condition, and it is proposed by this clause to give the Governor-General in Council power to require a Life Insurance Company, in cases where there is reason to doubt its ability to fulfil its contracts, to submit its affairs to actuarial examination.

Clause 39.—The forms in which Insurance Companies have to submit their returns to the Governor-General in Council have been carefully drawn up in order that these returns may contain essential information. It is a necessary safeguard that this information should also be made available to the public.

Clause 41.—The procedure in regard to amalgamation has been slightly simplified. Compare section 20 of Act VI of 1912.

Clause 47.—See section 34 of Act VI of 1912. The clause makes it plain that the default shall be a ground on which any shareholder or policyholder may apply, at the

expense of the Company, for a winding order. Section 34 of Act VI of 1912 does not say who is to approach the court for a winding up order.

Clause 54.—See section 26 of Act VI of 1912.

Clause 55 (2) (f).—This matter is dealt with by rule 15 of the rules issued under Act VI of 1912. In order to prevent abuses, it is considered necessary for the Governor-General in Council to have power to prescribe the extent to which the premiums referred to in the clause may be treated as assets.

Clause 57.—Taken from section 41 of Act VI of 1912.

Clause 59.—The effect of section 3 of the Provident Insurance Societies Act, 1905, is to limit the extent to which such societies might carry on life insurance business. The amendment proposed is designed to limit the extent to which Provident Insurance Societies may carry on any kind of insurance business.

Notes on the Schedules.

Forms A, B, C and D are based on the corresponding forms of the English Act of 1909.

Form A in the draft does not follow the form in the English Act by requiring the following items to be shown separately for business within and out of the United Kingdom.

Premiums,
Consideration for annuities,
Claims by death,
Claims by maturity,
Surrenders,

Annuities,
Bonuses in cash,
Bonuses in reduction of premium,
Commission.

By the provisions of clauses 22 (3) and 29 (a), however, the Indian premium income must be stated separately not only for life insurance but for all classes of insurance business. As the consideration for immediate annuities can be ascertained from the returns under the new 5th Schedule it is not considered necessary to have a separate entry for that item as in the English Act.

Notes 1 and 2 to form A in the English Act are covered by the foot-note to form A in the draft Bill. Note 3 is covered by the provisions of clause 22 (1). Note 4 by clauses 22 (2) and 24 (5). Note 5 by clause 27. Note 6 by clause 55 (2) (g).

In Form D of the 1st Schedule to the draft Bill the amount of the outstanding claims is included in the fire insurance fund instead of being shown separately in the balance sheet as in the English Act.

In the form of balance sheet shown in the 3rd Schedule claims under life insurance policies have been split up into claims admitted but not paid and claims intimated but not admitted. On the assets side of the balance sheet loans and mortgages are included under the general heading of investments. The heads under which many of the other investments have to be entered have been re-arranged to suit the conditions of Indian companies.

The draft 4th Schedule contains under questions 8 and 17 items which under the English Act are dealt with under headings 10 and 11 of the 5th Schedule to that Act. It also includes several items previously dealt with by the Rules issued under the Indian Life Assurance Act of 1912.

The 6th Schedule in the Bill corresponds to the 6th Schedule of the English Act.

The draft 7th Schedule corresponds to statement D of the Indian Life Assurance Act of 1912.

The 7th Schedule of the English Act is covered by clause 53 of the draft Bill.

No schedule has been prepared corresponding to the 8th Schedule to the English Act.

(2) In determining the advance to be sanctioned, due regard shall be paid to the amount of subscriptions lying to the credit of the applicant. The amount of the advance shall be a sum expressed in whole rupees and ordinarily the monthly instalments shall also be in whole rupees, the advance applied for being raised or reduced, if necessary, to enable instalments to be thus fixed.

(3) Recoveries shall be made monthly, commencing from the first payment of a full month's salary after the advance is granted, but no recovery shall be made from a subscriber while he is on leave of any kind other than casual leave.

(4) When in accordance with rule 36 two or more advances are made, each advance shall be treated separately, and the monthly deduction of not less than one twenty-fourth of each advance shall be made until that advance is cleared.

(5) The instalments shall be paid by compulsory deductions from salary, and shall be in addition to the usual subscription.

38. Similarly, an additional instalment equivalent to 8 per cent. of the total amount of the advance shall be paid when the advance is repaid in more than twelve instalments. In calculating such additional instalments a fraction of a rupee, if it exceeds eight annas, shall be taken at the next higher whole rupee, and if it does not exceed eight annas shall be ignored.

39. The sum at the credit of a depositor shall not be liable to forfeiture on dismissal or on conviction by a Criminal Court, except for an offence for which the penalty of forfeiture of the whole of the offender's property is prescribed by law.

40. If any payment has to be made during the year on an individual deposit account under rule 34 interest shall be calculated on that account only as nearly as possible in accordance with the rules in force in the Imperial Bank or Post Office Savings Bank.

41. A copy of the account of each depositor shall be furnished to him as soon as possible after the close of the financial year to which the account relates, and not later than the fifteenth day of the following month, or at the time of payment in the case of accounts closed in accordance with rule 34.

42. No deposits from servants other than those authorized by these rules shall be credited to the Provident Fund.

Subscription during leave.

43. Servants shall not be permitted to subscribe to the Provident Fund while absent on leave other than leave on full average salary. They may at their option subscribe while absent on leave on full average salary.

44. (1) A servant who desires to subscribe during such leave shall notify his intention in advance in order to allow of the deductions from his leave allowances being noted in his leave and pay certificate. A servant who has notified such intention shall not be permitted to discontinue subscribing during leave.

(2) A servant who fails to notify his intention to continue to subscribe when proceeding on leave, may therefore be allowed to pay his subscription in cash.

Dead Accounts.

45. On a depositor leaving the service his account shall be closed, and unless the amount at his credit be withdrawn, in the case of balances not exceeding Rs. 10, within one year and in the case of balances exceeding Rs. 10, within three years, it shall be written off as a dead account, and not repaid save under the orders of the Officer Commanding-in-Chief, the Command.

5. In section 138 of the said Act as in force in areas in which the Bengal Village Self-Government Act, 1919, is not in force, for clause (a) the following shall be substituted, namely :—

Ben. Act
V of
1919.

" (a) determining the mode and time of appointment or election of members of Boards and Committees, the term of office of such members and the registration of voters and candidates, and in the case of District Boards the qualifications and disqualifications of members, and in the case of Union Committees the qualifications and disqualifications of voters and members; and generally for regulating all elections under this Act and determining the authority who shall decide disputes relating to such elections."

STATEMENT OF OBJECTS AND REASONS.

A great waste of time, labour and money is involved in the preparation of separate lists of voters for the Legislative Council, Local Boards and Union Boards. Separate lists are necessary because of the differences in franchise.

It is not within the power of the local legislature to alter the franchise for the Legislative Council so as to make it coincide with that of local

bodies. It is not feasible to require a higher franchise for local bodies since the result would be that some voters would thereby be disfranchised. It is, however, possible to make the franchise uniform for Local Boards and Union Boards. One step will thereby be taken towards elimination of labour in the preparation of electoral rolls. In areas in which Union Boards have been established, the Union Board and Local Board franchises are already identical. This was brought about by the Bengal Village Self-Government Act, 1919, which substituted by item 4 of the amendments to the Bengal Local Self-Government Act of 1885 in Schedule 1 to the Bengal Village Self-Government Act, 1919, a new section for section 9 of the Bengal Local Self-Government Act of 1885. Since this change, in such areas, which may be termed " Union Board areas ", the possession of a clear annual income of Rs. 240 and the educational qualification no longer qualify persons to vote at Local Board elections, while the payment of cess of Re. 1 qualifies in place of the payment of Rs. 2 which was previously necessary.

This Bill is intended to make the franchise of Local Boards in areas in which Union Boards have not been established the same as in Union Board areas. Where Union Boards have not been established the old franchise as laid down in section 9 of the Bengal Local Self-Government Act of 1885 is still in force.

As Union Boards are more widely established, this difference in franchise will automatically tend to disappear; the present Bill will merely accelerate the process. Labour and money in the preparation of voters lists will be saved by rendering the Local Board and Union Board franchise uniform.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1924.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Jails.

DARJEELING, THE 24TH JUNE 1925.

RESOLUTION No. 6583.

READ—

The Report on the Administration of Jail Department in the Presidency of Bengal for the year 1924.

READ ALSO—

The reports for the years 1922 and 1923 and the resolutions of Government recorded thereon.

The report presented by the Inspector-General of Prisons shows that the number of prisoners in the jails of the Presidency during the year 1924 was almost the same as in the previous year. The average daily population was

13,476, the figure of 1923 being 13,734. The cost of guarding and maintaining these prisoners decreased from Rs. 24,04,832 in 1923 to Rs. 22,74,535 in 1924. Although the number of deaths increased from 207 to 226, the hospital returns show that on the whole the improvement in health noted last year was well maintained.

2. In accordance with the recommendation of the Indian Jails Committee in favour of closing as many district jails as possible and of concentrating prisoners in central jails, the district jail at Noakhali was converted into a sub-jail, and this year the same has been done with the Malda jail. The central jail accommodation, however, has not been increased, and as the daily average number of convicts in 1924 was very little below the accommodation figures, it will not be advisable to make any further reduction in the number of district jails until more central jail accommodation is provided.

3. The accommodation for under-trial prisoners is insufficient, especially in sub-jails. In the year 1924 the sub-jail at Gaibanda was enlarged and new sub-jails built at Alipore Duars and Patuakhali. Funds have been provided for the enlargement of two more sub-jails during the present year.

4. In the interesting review at the beginning of his report, the Inspector-General of Prisons has given an account of the more important administrative events of the year. In accordance with the recommendations of the Indian Jails Committee, the remission system has been extended to all prisoners sentenced to more than six months' imprisonment: and Advisory Boards have been created to examine the cases of long-sentence prisoners. Their recommendations for the release of well-behaved prisoners have in all cases been accepted by Government. The use of fetters to ensure the safe custody of long-term convicts has been abolished except in the case of dangerous prisoners. The punishment of whipping can now be inflicted only for the most serious offences, and then only after the facts have been placed before a committee consisting of the District Magistrate and two non-official visitors and the sanction of the Inspector-General of Prisons obtained. Only ten whippings were inflicted in the year 1924, this being the lowest number on record.

5. The improvement of the Juvenile Jail was discussed at a conference summoned by His Excellency Lord Lytton after an inspection of the jail. The recommendations of the conference were approved by the Jails Standing Committee and were adopted by Government. They include structural alterations for which it is proposed to place a supplementary demand before the Legislative Council, the substitution of useful trades for the monotonous labour of making quinine tablets, the organisation of the institution on the lines of an industrial school, the removal of adolescent prisoners to another institution, and the keeping of under-trial prisoners in a separate remand home.

6. The thanks of Government are again due to the Calcutta Prisoners' Aid Society for the help rendered to prisoners after release. The result of the enquiries made as to the possibility of starting branches of the society or similar associations in other places has been disappointing, the replies received from the districts showing that the hope of local support or interest is small.

7. The Boards of Visitors have continued to do useful work. The quarterly joint inspections made by the Board have increased the interest taken in the jails by the Visitors and provide the Inspector-General of Prisons and Government with useful criticisms of the working of the jails.

8. The Inspector-General in his report has drawn attention to the unfortunate consequences of the change in the law under which prisoners detained in jail owing to their failure to furnish security required in proceedings under section 109, Criminal Procedure Code, are now given simple imprisonment. He points out that prisoners of this class are often habitual criminals, but as they are undergoing only simple imprisonment, it is impossible to attempt reformation or to employ them in useful labour. The Board of Visitors of the Presidency Jail, where the evil is most apparent, noted in June

1924 that there were 149 prisoners in the jail undergoing simple imprisonment, most of whom were hardened criminals with several previous convictions. The Board were strongly of opinion that it was harmful to prisoners of their type, both morally and physically, to be sentenced to simple imprisonment, and that they should be given some task which would give them healthy exercise and enable them to learn some trade which might be of use to them on release. Similar remarks have been made by several Visitors, official and non-official. The Government of Bengal agree with these criticisms.

9. The report on manufactures shows that the net earnings rose from Rs. 6,32,544 in 1923 to Rs. 7,57,131 in 1924, and the average earnings of prisoners sentenced to labour from Rs. 57 to Rs. 74-10. These figures are apparently satisfactory, but do not take overhead charges into account. A commercial system of accounts for jail manufactures should be introduced as early as possible.

10. The jute mill in the Presidency Jail had to be closed at the end of November, as the old machinery was reported to be in a dangerous condition. The question whether it should be re-equipped or other forms of labour adopted has not yet been decided. The prisoners are now employed on other industries.

11. The Governor in Council has much pleasure in acknowledging the good work done by the officers mentioned by the Inspector-General of Prisons in his report, and thanks Lieutenant-Colonel Hamilton for his careful administration of the department.

ORDER.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information.

Ordered that copy of this resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

**RESOLUTION ON THE REPORT ON THE OPERATIONS OF THE DEPARTMENT
OF AGRICULTURE, BENGAL, FOR THE YEAR ENDING 31st MARCH 1924.**

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Agriculture.

CALCUTTA, THE 4TH JULY 1925.

RESOLUTION No. 2586.

READ—

The report on the operations of the Department of Agriculture, Bengal, for the year ending 31st March 1924.

This report was due to Government on the 1st August 1924, but was not received in print till May last. The delay detracts enormously from the value of the report and the information it contains, and although Government recognise that the Director's hands have been full of current work and the delay has been due largely to an endeavour to make the report as full as possible, they consider that a less complete report submitted punctually would have been far more useful to the public, and steps must be taken to ensure that the report is submitted on the due date in future.

2. Mr. R. S. Finlow held charge of the department throughout the year as Officiating Director during the absence on leave, preparatory to retirement, of Mr. G. Evans. As a result of the decision of Government on the recommendation of the Bengal Retrenchment Committee, two sanctioned posts of Deputy Director of Agriculture were not filled and the posts of Superintendents of Agriculture, Chittagong, Rajshahi and Presidency Divisions, were abolished. The charges of the Presidency and Burdwan Divisions were amalgamated and placed under the Deputy Director of Agriculture, Western Circle.

3. **Agricultural education.**—The Director of Agriculture reports that no progress was made in nature study in the primary schools during the year, and that this was due in part to the want of proper gardening facilities in the majority of the schools.

The Secondary Agricultural School at Chinsura was closed in 1924 as a result of the recommendation of the Bengal Retrenchment Committee. Negotiations are now in progress for handing over the school to a private educational body, which has undertaken to manage it on approved lines. The Secondary Agricultural School at Dacca suffered from a lack of students: there is accommodation for about 30 students, but only 14 seats were filled up last session. This falling off is attributed to the absence of immediate prospects of Government employment for the passed students. The fact that all the 14 students at present in the school intend to go back to the land is, however, a satisfactory feature.

The great importance of introducing an agricultural bias in the secondary schools in the rural areas of the province is obvious, and stress has recently been laid on this question in the report of the Bengal Unemployment Committee as a means of popularising agriculture as a profession among the educated middle classes. Examples of ordinary schools where agricultural subjects, theoretical and practical, are included in the curriculum are afforded by the Amarpur School in the Burdwan district, the Durgapur High School in the Chittagong district and the Ashabarea Middle English School at Asansol. Special interest attaches to the good work which is being done at the Amarpur School in this direction. In December 1924, a Conference on agricultural education was convened by Government. The Conference considered it desirable to reconsider the present curricula of country schools above the primary standard in Bengal so as to introduce the experiment of teaching elementary agriculture combined with practical work in the field. In accordance with the recommendation of the Conference a small committee consisting of an officer of the Agricultural and of the Educational Department and a non-official gentleman was deputed to the Punjab to investigate the possibilities of the introduction of agricultural classes in middle schools in Bengal on the lines which have proved successful in that province. This committee has since submitted a report which is receiving the careful consideration of Government, and it is hoped to introduce a scheme

of secondary agricultural education specially suited to the conditions of this province.

The provision of facilities for higher agricultural education in the province depends on the establishment of the proposed Agricultural Institute at Dacca. This scheme is being re-examined by Government with a view to the possibility of finding funds for its inauguration in the near future.

4. Research and experiment.—Interesting experiments are in progress into the quality of the fibre produced by departmental and other races of jute under different conditions; the incidence of fungus disease in jute, the commercial possibility of rhea, sida and agave fibres and into the types of paddy suitable for different soil and climatic conditions prevailing in various parts of the province and especially in the dry upland tracts of west Bengal. The mycological section is occupied in investigation into a disease which has been causing serious damage to the betel-vine plantations over a wide area.

Investigation on the mango weevil is reported to have confirmed the view that cleanly condition of the soil is an effective preventive; while lack of drainage is reported to create a suitable environment for the *ufra* disease of the deep-water paddy.

The *tanna* variety of sugarcane continues to increase in popularity over a very wide area. The extensive adoption of the cultivation of this variety of sugarcane has materially increased the profits of the cultivators. The Director of Agriculture reports that in the Kishoreganj subdivision alone the area under this variety of cane has increased from 400 to 10,000 acres in four years. An officer of the Provincial Agricultural Service has been employed on the work of distribution of setts of this variety and of securing their widespread adoption. It appears, however, that the Coimbatore hybrid sugarcane, known as C 213, promises to prove even a better yielder than *tanna* as well as an yielder of purer juice besides being an excellent drought resister.

The question of improvement of the date-sugar industry in Bengal is engaging attention, and funds have been provided for an investigation in the matter in the date-growing areas of the province. The work on tobacco has recently been placed under the charge of the Agricultural Chemist with the assistance of a Superintendent of Agriculture specially trained in tobacco cultivation. It is hoped that this arrangement will lead to an extension of the cultivation of good varieties of tobacco in the province so as to afford opportunity for the growth of a thriving industry in cigar manufacture.

Important experiments with cotton are being carried on by the Second Economic Botanist. The work consists chiefly in the selection of suitable types of cotton yielding good lint. Results of the experiment so far obtained have led to the belief that a type suitable to the high lands of Western Bengal would be evolved in the near future, and it is proposed shortly to transfer the headquarters of the Second Economic Botanist from Dacca to Western Bengal in connection with this work.

5. Water-hyacinth.—The problem of effectively dealing with the water-hyacinth pest has been engaging the serious attention of Government for some time past. Experiments with Griffiths' spray have so far shown that it is not innocuous to human beings and animals as was originally believed. It has been found, however, that although spraying is not effective in killing the weed completely, it affords useful help in the removal of the weed by man-handling and other mechanical means. The Irrigation Department is carrying on experiments with a view to keeping the navigable channels in charge of that department free from the weed. It is recognised, however, that the whole-hearted co-operation of local bodies and of the public generally is essential for success in an intensive campaign against the pest in view of its extensive nature and of the necessity for simultaneous and concerted action. It is proposed shortly to place an officer of the Provincial Executive Service on special duty in order to organise concerted action in selected localities for the eradication of water-hyacinth in co-operation with the District Officers and local bodies, and it is hoped that the necessary public support will be forthcoming in organising an effective campaign against this pest in the ensuing dry season.

6. Improvement of the farming industry: Agricultural stations and farms: Animal husbandry: Irrigation and supply of improved seed, manure and implements.—It is the accepted policy of Government to have an agricultural farm in each district in which the local conditions will be studied and the results of experiments demonstrated to the public and provision is being made to start two district farms every year. With the object of demonstrating to the public the profitableness of

agriculture as a profession if conducted on the lines recommended by the department, it has been decided to run the demonstration portion of each farm on business lines.

Closely connected with the question of farming is that of animal husbandry. The problem of evolving a better breed of cattle and securing a better milk supply is under investigation at the Rangpur Cattle Farm and at the Central Farm at Dacca. At Rangpur experiments have been undertaken to evolve a dual purpose animal—the males being good plough bullocks and the females good milch cows—by mating pedigree bulls with *deshi* cows; and a very valuable herd has already been built up by this process. Young bulls of good stature and carrying a milking strain are being distributed to district farms and 12 to 20 young pedigree bulls are now available for sale each year. The Director of Agriculture has mentioned with regret that although there is a considerable demand for these pedigree bulls from such outlying areas as Assam, the Bengal public have so far failed to recognise that these animals, carrying as they do a good milking strain, are quite cheap at the price charged, viz., Rs. 300 to Rs. 350 per animal. Government share the Director of Agriculture's hope that Court of Wards estates, enlightened zamindars as well as well-to-do cultivators will take full advantage of the opportunity now afforded of purchasing these bulls at the moderate price which is being charged for them.

Investigations are in progress in Dacca and Rangpur with a view to discovering the most suitable fodder crops for the various parts of the province.

Leaflets containing simple instructions on the subject of animal husbandry, fodder, silage as well as cattle disease and their treatment are under preparation.

The question of irrigation is of vital importance to the farming industry, especially in the uplands of Western Bengal. Considerable progress has been made in the districts of Bankura and Birbhum in solving the problem of irrigation with the help of Co-operative Irrigation Societies and the example of these two districts has spread to the neighbouring districts of Hooghly, Burdwan and Midnapore. Technical assistance is being afforded by the Irrigation Department towards the preparation and execution of schemes taken up on co-operative lines and the Co-operative Department has been provided with the necessary staff for the organization of Co-operative Irrigation Societies. In other parts of the province also there is need for the re-excavation of tanks and construction of irrigation channels for agricultural purposes. The Bengal Agricultural and Sanitary Improvement Act was passed in 1920 to facilitate the carrying out of projects of this nature. Hitherto, however, advantage has not been taken of the provisions of this Act by the public. As there appeared to be some misapprehensions prevailing regarding the requirements of the Act, a simple set of instructions in the form of introduction to the Act and the rules thereunder, has been issued for the information and guidance of the local officers and intending applicants and it is hoped that this will lead to resort being widely taken to the provisions of the Act for the improvement of agriculture.

As a result of the decision of Government on the recommendation of the Bengal Retrenchment Committee the seed stores established by the department outside the farms have been abolished. There is a widespread popular demand for departmentally improved seeds. These seeds have been evolved as a result of careful scientific observation and unless they are propagated under proper safeguards, the useful work of the department in this direction will be lost to the public. It has, therefore, been found necessary to utilise private agencies for the purpose of their distribution in addition to the departmental agencies and farms. The assistance of local officers and the panchayats is also being utilised in areas in which there is scope for popularising departmental races of crops.

7. Propaganda and dissemination of agricultural information.—The successful demonstration of improved methods of agriculture with a view to their general adoption by the cultivating classes is an important function of the demonstration branch of the Agriculture Department. Hitherto owing to a lack of co-ordination between the work of the research and demonstration branches sufficient progress has not been made in this direction. This defect is now sought to be removed by the appointment of an Assistant Director of Agriculture who will, for the present, be in charge of the demonstration branch. The Director of Agriculture realises that the question of local organisation for propaganda in regard to departmental recommendations is the most serious problem which at present confronts the department. It is reported that in those districts in which the local officers have interested themselves in the matter of agricultural improvement there

has been a great advance in agricultural practice. Government agree with the view expressed by the Director of Agriculture that the District Officers may effectually use their influence in encouraging khas mahal and Court of Wards estates and local zamindars to demonstrate improvements recommended by the Department of Agriculture. The Director of Agriculture has given interesting figures as to the enormous possibilities of increasing the wealth of the cultivators of the province by the widespread adoption of departmental races of several crops and in particular of jute and paddy, and it is only necessary to evolve a simple machinery by which the cultivators of the province can be brought into close touch with the officers of the Agriculture Department with a view to their testing and adopting these improved races of crops as well as other improvements recommended by the department. Government are convinced that the agency of agricultural associations will be found most effective for this purpose. Every effort should therefore be made to utilize agricultural associations for the popularisation of the results of scientific research and the adoption of improved agricultural practice. The policy of Government in regard to the formation of agricultural associations was fully enunciated in their circular No. 631 T.—R., dated the 7th June 1919, and it is hoped that the Assistant Director of Agriculture, who will henceforth be in charge of the propaganda branch of the department, will devote his special attention to the organisation of agricultural associations. Mention has been made in the report of the good work which is being done by the agricultural associations in Birbhum, Kishoreganj, Nadia and Jessore, and since the close of the year the Director of Agriculture has brought the good work of the agricultural association at Malda to the notice of Government. The Governor in Council trusts that the examples of these associations will be emulated by those in other districts. The Director of Agriculture also mentions the good examples set by Rai Bahadur A. C. Banarji of Sultanpur (Birbhum), Rai Bahadur K. N. Mallik of Ranaghat and Kumar Sanat Kumar Roy of Dighapatia in conducting their farms on scientific lines under the direction of the officers of the Agriculture Department. These well-conducted private farms will serve as an object lesson to the educated members of the *bhadralok* class in the practice of farming on modern scientific lines.

Government agree with the view expressed by the Director of Agriculture that the personality and proper training of the District Agricultural Officers is an important factor in the success of demonstration work, and trust that the arrangement which has been now brought into force of placing six officers of this class for training at the Dacca Farm and the revised instructions recently issued by the Director of Agriculture regarding the duties and responsibilities of these officers will greatly increase their efficiency and popularity.

8. **Sericulture.**—The work of the sericultural branch embraces the production of disease-free seed cocoons by a method of selection at Government nurseries and their multiplication through the agency of selected rearers under departmental control. There are now no less than 36 seed farms under selected rearers to whom they are a source of considerable profit. The policy of encouraging selected rearers will be continued and extended by increasing the inspecting staff as funds permit. Eight *ex-students* of the Sericultural School were granted rewards of Rs. 250 each for the erection of model rearing houses. A great expansion of sericultural operations has taken place in the district of Bankura under departmental supervision. Rearers' and Reelers' Co-operative Societies are reported to be doing good work in several districts.

9. The thanks of the Governor in Council are due to the Director of Agriculture for the administration of the department during the year. His Excellency in Council also takes this opportunity of acknowledging the assistance rendered to the department by local officers and non-official gentlemen in various parts of the Presidency.

2. Smoke abatement, to be successful, must have the co-operation of the owners. Within the last 20 years Smoke Ordinances have made efficient progress only by following the lines of Combustion Engineering, whose object is to secure furnaces, etc., which fulfil the requirements of efficient combustion, and with which the owners can, with reasonable efforts, comply with the smoke requirements and secure economic operations.

In the bygone days, when about half of the heat of the coal and often less was used for making steam, the balance being wasted in smoke and unburned gases, attempts to reduce the smoke under the Smoke Act was objected to as unreasonable and oppressive because reducing the smoke meant using more coal. There was much in the owner's contention, as the combustion appliances in those days were crude and inefficient.

But, in the present front line endeavour, with the achievements of Combustion Engineering in improving the boiler as a heat absorbing machine and the design of the furnace, etc., to improve combustion, 90 per cent. of the heat in the coal is transferred to the steam, and there is no difficulty in complying with the smoke requirements.

During the year held 12 meetings. has been under the sanctioned strength, and as it is inadequate to control detailed the activities of the Commission in general smoke abatement.

To improve local conditions, the Commissioners closely studied the modern Smoke Ordinances, developed the means for strengthening the co-operation of owners, decided to strengthen further the control in the cases of construction or re-construction of old or new furnaces, etc., and modernised the methods of observing smoke, and locating and reporting offenders. The Commissioners are glad to say that this has secured a reduction of smoke. The average emission of smoke for this year, as shewn in the Appendix, is 1.39 minutes in the hour, against 1.49 for the previous year and is also the lowest for the last four years. The Commissioners had, perforce, to direct their endeavours mainly to the reduction of factory smoke which is only one phase, though an important one, of smoke abatement.

4. The Chief and Assistant Inspectors made 11,708 smoke observations as against 10,009, and the number of visits to factories, etc., for instructional and testing purposes was 3,410 against 3,315 for the previous year.

5. During the year 2,262 offences were reported to the owners for departmental action against 1,454 for the previous year, and the Commissioners gratefully acknowledge the beneficial result of the owners' action, which was generally taken at once. The number for the last year greatly exceeds the number ever previously reported, and is the result of the recent modernising of the method of taking smoke observation and locating offences. But, in some cases, it was necessary to put the penal sections of the Act into operation. Statutory warnings were served in 34 cases and prosecutions instituted in 14 cases against 27 and 4, respectively, for the previous year.

6. In dealing with the low-lying destructive smoke caused by the illicit manufacture of coke by the partial burning of raw coal in open heaps it was not possible to take much action. The Police were authorised to take action, under the Act, against the actual coke-makers in 12 cases.

7. The public continue to apply freely for relief to the Commission. During the year 56 complaints were received against 55 for the previous year, and relief was given wherever possible. In addition to these many references were received from the various municipalities necessitating, in many cases, careful tests and lengthy observation.

8. Suitable furnaces, etc., are the basic factors for efficient smoke abatement. During the year the Commissioners examined 53 plans of installation, of which 78 were made in the office of the Commission. In a few cases they were rejected, or approval withheld until altered in accordance with the requirements of the Commission. Also, in several of the mills outside the controlled area, including jute mills, the Commissioners were consulted as to the best methods for furnace alterations to secure increased steaming capacity.

9. For the last three years reference has been made to the use of paddy husk as fuel instead of coal in the furnaces of the rice mills. The paddy husk produced in the local mills was difficult to deal with, as in the process of milling it is broken up and has a large proportion of fine powder. Accordingly, it was difficult to stop the discharge of clouds of light charred husk from the chimneys which would have ruined the surrounding localities for residential purposes, and which was the cause of numerous complaints.

The Commission are glad to say the matter has reached a successful termination, both as an economic and a public health achievement, and gratefully acknowledge the cordial and valuable assistance received from the owners. When the rice mills were using coal, the industry was dwindling. Since using paddy husk as fuel, which costs nothing, new life was infused and 42 new mills have been started, others are in course of construction and others projected, and many of the old mills have been enlarged. Also, many mills were started in the mufassal. From different parts of India, the Commission have been consulted as to what would be a suitable design of furnace for other kinds of light fuel.

The reduction of smoke has been remarkable. Last season, from a district with about a 100 miles, a total of 200 minutes of black smoke in one hour was a common occurrence. This year 40 minutes is the usual limit and it is often less. The improved furnaces and the modernised methods of observing smoke, locating and reporting offences are the causes.

10. Electric and gas appliances for commercial as well as for domestic use should be encouraged as permanent remedies for atmospheric pollution caused by smoke. During the year, 710 motors aggregating 10,990 horse-power were connected to the system of the Calcutta Electric Supply Corporation.

The low-lying smoke discharged at ground level, which is more destructive than factory smoke, and which collectively in the suburbs, particularly in the cold weather evenings, enshrouds localities for several hours in a low-lying suffocating smoke pall, even on holidays when the mills are stopped, was anxiously considered by the Commissioners.

This was discussed with the officials of the Calcutta Corporation. It appeared that the general solution is the replacement of solid fuel fires by gas or other smokeless appliances. But the sources of this smoke are so many and so varied that it is impossible at present to deal with it as a whole. The following sources of smoke were discussed with a view to taking action:—The making of coke from raw coal on Corporation and other grounds, naked oil lamps in shops, the possibilities of extending the use of gas appliances in hotels, boarding houses, clubs, and new *pucca* buildings.

During the year the Oriental Gas Company have supplied and fixed 1,049 gas appliances in the City, of which 710 have been for cooking purposes, 300 for heating bath water and 39 for various industrial purposes. The installation of these smokeless gas appliances has totally prevented the smoke that would have emitted from the equivalent solid fuel fires and also prevented the discharge of over 5 tons of soot into the atmosphere every month.

Chief Inspector and Secretary.

CALCUTTA, THE 8TH JULY 1925.

RESOLUTION—No. 2537Pl.

READ—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1924.

THE office of the Commissioner of Police was held by Mr. C. A. Tegart, O.I.E., M.V.O., throughout the year. Personnel in the superintending ranks was reduced by the abolition of the posts of Assistant Commissioner in the Port Police and Hackney Carriage Department as a measure of retrenchment.

Case statistics.—There was an increase in the total number of true cognisable cases reported during the year from 98,308 to 105,064. In

urban conditions this figure for the total volume of reported crime has however no clear significance, almost 80 per cent. of these cases arising out of minor offences under the Cruelty to Animals Act and the Police Act and Motor Vehicles and Hackney Carriage Acts. An increase in prosecutions under the last named three Acts, taken with a falling off in cases under the Cruelty to Animals Act, practically accounts for the fluctuation.

Serious Crime.—On the other hand a marked improvement is shown in the figures for serious crime. The statistics of robbery, burglary and theft are characterised throughout by a decrease in the number of true cases together with an increase in the percentage of convictions. The number of true cases of robbery reported to the Police fell for instance from 86 in 1923 to 53 in 1924, the latter being less than half the number of true cases reported in 1922, while the percentage of convictions increased from 27 to 50 per cent. Similarly, the number of burglaries decreased from 1,564 to 1,206 and of thefts from 5,207 to 4,777, and 25 per cent. of the trials for burglary were followed by conviction as against 17 per cent. in the previous year.

Goondas Act.—While according full credit to the Calcutta Police for the vigilance which effected these results, the Governor in Council finds in them also evidence of the sound judgment of the legislature in arming the Commissioner of Police with special powers under the Goondas Act. This Act came into force on 28th February 1923, and since that date 56 goondas have been removed from the city of Calcutta of whom 21 were externed in 1924. The Act has gone far to secure for the inhabitants of Calcutta the relief from the goonda class which it was designed to afford.

Revolutionary Crime.—The record of revolutionary crime, the recrudescence of which was a feature of the previous year, continued with increasing gravity for the greater part of the year under review. A European gentleman was assassinated in mistake for the Commissioner of Police; a bomb manufactory was raided and live bombs were found; on two occasions Bengali youths were found in possession of revolvers and ammunition, the weapon in one case being fully loaded; and finally a bomb was thrown in Mirzapur Street resulting in the death of a shop-holder, while the trial of those arrested for this offence was followed by a murder on the Railway line. The culprits in the first four of these cases were convicted, and the grim record of the year was cut short by action taken on the 25th October under the Criminal Law Amendment Ordinance I of 1924. No further cases of revolutionary crime occurred in Calcutta up to the end of the year.

Communal friction.—It is matter for regret that the absence of communal feeling which characterised the previous year no longer prevailed in 1924. Very serious rioting by Muhammadans against Sikhs occurred in June as the outcome of a rumour that the latter were kidnapping boys for sacrifice. The rumour, which is only too familiar an incident of industrial undertakings in this country, arose on this occasion out of work on the new docks, and was totally baseless; but the affair resulted in the death of eight Sikhs, the destruction of several of their taxi cabs and many injuries during the riots. Feelings between Hindus and Moslems are reported to have been strained on occasions but no outbreaks occurred.

Traffic control.—The Commissioner of Police has no particular development to record in regard to traffic control. The number of motor vehicles reported to be in use in Calcutta continues to increase by over 1,000 per annum, but, especially in the case of private cars, some doubt may be entertained whether the increase in numbers on the roads entails a corresponding increase of vehicles on the streets. Features which are significant of changing habits in Calcutta are signs of expansion in the registration of motor buses, a decline in the number of first class hackney-carriages registered and a corresponding increase in the popularity of the rickshaw. The total number of persons injured and killed in accidents with motor-vehicles, namely, 846 and 71, respectively, remains practically the same as in the preceding year. The traffic problem in Calcutta as a whole is a very big one, and for financial reasons it has not yet been found possible even to

allow the Commissioner of Police the extra force required for traffic control in the south of the town. An increase of nearly cent. per cent. in the number of cases under the Motor-Vehicles Act indicates increased activity in a sphere where there is certainly room for closer control, but is difficult to reconcile with a heavy decrease in the number of convictions in motor prosecutions.

Police housing.—A beginning has now been made, if still on a somewhat restricted scale, with the project for housing the Calcutta Police in Government buildings instead of in rented premises. Three buildings were under construction in 1924, which will provide quarters and station offices for the force of two police-stations and one outpost. Since the end of the year under review the Legislative Council have voted funds for a beginning to be made with a loans scheme at an estimated cost of Rs. 17,00,000 and this will provide similar accommodation for nine out of the eleven police-stations in the urban area.

The Governor in Council has read with pleasure the list of officers whose good services have been brought to his notice, and desires to congratulate Mr. Tegart and his force on the satisfactory record of the year. A special word of recognition is due to the success of the force in meeting the emergency caused by the riots in June and in the reduction of serious crime against property.

ORDER.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

L. BIRLEY,

Chief Secretary to the Government of Bengal.

CALCUTTA, the 9th July 1925.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 5th July 1925.

Summary.—During the week the rainfall was generally light. Transplantation of winter paddy seedlings is progressing but slowly for want of sufficient rain. Harvesting of autumn paddy and jute on low lands continues in parts of East and North Bengal districts, elsewhere weeding is nearing completion. The condition and prospects of standing crops are fair. The average price of common rice for the province has fallen by about 0.53 per cent. as compared with that of the previous week.

CALCUTTA,

DEPARTMENT OF AGRICULTURE, BENGAL.**PRELIMINARY FORECAST OF THE JUTE CROP IN BENGAL, 1925.**

NOTE.—On an average of the five years ending 1922-23 the area under jute to which this forecast relates represents 88·5 per cent. of the total area under jute in British India.

Area sown.—The District Officers' figures show a total area of 2,494,425 acres. As the returns for some districts were considered an underestimate, this figure has been increased by 42,288 acres, making a total of 2,536,713 or 6 per cent. over the final figures for 1924.

Character of the season.—The season opened with good rainfall, especially in the important jute districts. Rainfall during early March facilitated sowings. The dry weather which followed till April somewhat hindered growth and delayed further sowings over the greater part of Eastern Bengal. Later continuous and excessive rain caused water-logging on low lands in some Northern Bengal districts and parts of Mymensingh. During early May, weather was more favourable, but towards the latter part, heavy showers considerably damaged crops bordering rivers. Occasional showers with alternate sunshine in June helped the standing crops to recover from the effects of prolonged wet weather. In the *deshi* districts, conditions were favourable and good progress of sowings has taken place.

Present state of the crop.—Making allowance for damage done in some tracts of North and East Bengal by excessive rain, the present condition may be rated as fair on the whole. In West Bengal conditions are good, so far.

Stocks.—Very little old stocks now appear to be held in the districts.

Director of Agriculture, Bengal (Offg.).

APPENDIX I.

Preliminary Jute Forecast of 1925.

DISTRICT.	ESTIMATED AREA UNDER JUTE—		Whether much, little or no jute remains in the district from the crop of 1924.	Date by which the sowing of the crop generally commenced this year, and whether the date was early normal or late.	REMARKS BY DISTRICT OFFICERS.
	Last year.	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
24-Parganas ..	42,000	58,800	Nil	Middle of April. Normal.	The increase in area is due to timely rainfall and to high price obtained last year. The weather was favourable at the beginning owing to timely rain, but drought in certain areas towards the latter part of May affected the growth, which, however, improved with the advent of the rains. The present condition of the crop is good.
Nadia ..	72,335	60,240	Little	Middle of April to middle of May. Normal.	The decrease in area is due to paucity of rain at sowing time. Want of sufficient moisture is retarding the growth of the plants. No actual damage has yet been done to the crop. The present condition is fair and it is expected to improve with the setting in of the monsoon soon.
Murshidabad ..	13,983	17,815	Nil	Middle of April. Early.	The increase in area is due to high price of the crop last year and to favourable weather conditions at sowing time. The weather has been favourable and the present condition is satisfactory.
Jessore ..	81,641	101,335	None	End of April. Normal.	The increase in area is due to high price of the crop last year. The weather has been good and the present condition is very promising.
Khulna ..	20,315	25,317	None	Middle of March. Early.	The increase in area is due to high price of the fibre last year and to early rain this year. The effect of weather has been favourable, except in the Kalaroa thana in the Satkhira subdivision. Little damage was done by insect pests in places in Ragerhat subdivision. Absence of timely showers in the early stage has affected the crop much in Kalaroa thana. The present condition is good.
Burdwan ..	2,141	3,511
Midnapore ..	2,310	8,856	Nil	May Normal	The increase in area is due to high price of jute last year and also to favourable rainfall this year at the sowing season and up till now. The effect of the weather on the crop is good. No report about any damage has been received yet. The present condition is good.
Hooghly ..	11,125	22,122	Little	End of April. Normal.	The increase in area is due to favourable weather conditions at sowing time and to high price in the previous year. The weather has been generally fair and its effects generally favourable. The plants slightly suffered for a period from drought at places. The present condition of the crop is fair, but more rain is needed to help the growth of the plants.
Howrah ..	4,638	6,878	A little	Middle of April. Normal.	The increase in area is due to early and favourable rains generally. The weather was not quite favourable at sowing time, but subsequent rains have been beneficial and have improved the condition of the crop. The present condition is hopeful.
Rajshahi ..	93,000	92,125	Little	Middle of March. Normal.	The decrease in area is due to the damage done by heavy rains in May. The weather was unfavourable at the beginning, but is now fair. The heavy rain has considerably damaged the crop in low lands. The extent of damage is estimated at 15 per cent. The present condition of the crop is good.
Dinajpur ..	62,200	59,300	Very little	By the middle of April. Normal.	The decrease in area is due to unfavourable weather at sowing time. After sowing the crop has suffered much, owing to heavy rain, which has damaged the low land crops to some extent. The present condition is fairly good.
Jalpaiguri ..	42,000	46,000	Very little	Second week of April. Normal.	The weather has not been favourable in the eastern part of the district and its effects are not good in the Alipur Duars subdivision. The present condition is fair in Sadar and not so good in Alipur Duars.
Darjeeling ..	2,191	2,227	Little	By the end of April. Late.	The decrease in area is due to untimely heavy rain. The weather has not been favourable. The growth of the crop is stunted on account of heavy and untimely rain at the beginning which caused considerable damage. The present condition is fair.

	Acres.	Acres.			
Rangpur ..	270,000	200,648	Very little ..	April. Normal	The decrease in area is due to unfavourable weather at sowing time. The excessive and continuous rains after the sowing in April and May have retarded the growth of the plants and done some damage, especially in the low-lying lands. The present condition is not good.
Bogra ..	70,583	70,583	Nil ..	March to May	The weather was unfavourable at sowing time, but is now favourable. Constant rain hampered both the cultivation and growth of the crop. The present condition is fair in the high lands, but poor in the low lands.
Palna ..	118,050	120,100	None ..	Second week of April. Early.	The increase in area is due to high price of the fibre. The weather has been favourable on the whole, although there was more rain than necessary at sowing time. Some damage has been done by persistent showers in the fourth week of April. Jute semi-looper has appeared, but the damage is not yet appreciable. The present condition is fair.
Malda ..	15,084	15,084	Nil ..	Latter part of April. Normal.	The present condition of the crop is fair.
Dacca ..	283,236	205,828	Little ..	March. Normal	The increase in area is due to high price of the crop last year. The weather was favourable at sowing time. Drought at the end of March and beginning of April slightly retarded the growth. In May a sudden rise of rivers did considerable damage on very low lands. Since then the conditions have been favourable on the whole. The extent of damage done to the crop by floods and insect pests may be estimated at 2 annas on the whole. The present condition is fair.
Mymensingh ..	606,000	558,993	Very little ..	Middle of March	The weather was favourable at the beginning, but continuous rain since the third week of April resulted in water-logging. In many places weeding and hoeing were impossible and the crop was seriously damaged. Since the end of May to early in June the conditions were favourable and helped to neutralise the bad effects of the excessive rain in April-May. The conditions were unfavourable for interculture, and the destruction due to excessive rain is about 2 annas. The present condition is fair.
Faizpur ..	200,000	238,500	None ..	Gopalganj and Madaripur—Middle of March, Normal. Sadar and Goshando—Middle of April. A little late.	The increase in area is due to high price of the crop last year and to favourable conditions this year. The weather has been favourable from sowing time up till now, but more or less continuous rainfall in May and June interfered with the weeding on high lands and prejudiced the growth generally to some extent. Low land jute has suffered a little in some places, owing to accumulation of water, but the damage is not appreciable. Insect pests have been reported, but the damage is not considerable. The present condition is satisfactory.
Bakerganj ..	33,092	33,304	Very little ..	April and May. Normal.	The increase in area is due to high price last year. The weather was on the whole favourable at sowing time and afterwards in the Sadar and part of the Bhola sub-division, but not so in Pirojpur and Patuakhali subdivisions. The growth and present condition of the crop are good.
Chittagong ..	200	200	Nil ..	Middle of May	The weather has been seasonable and its effects have been good. The present condition is satisfactory.
Tippura ..	260,000	303,324	Practically nil	First part of April. Normal.	The increase in area is due to high price of jute and to favourable weather at sowing time. The low land crop was damaged by sudden rise of water and heavy rain. The extent of damage is estimated at about 8 annas in Brahmanbaria and 2 annas in Sadar. The present condition is not very encouraging.
Nonkhali ..	33,160	40,132	Nil ..	March. Normal	The increase in area is due to high price of the crop last year. The weather has been favourable up till now. Slight damage is reported from the Foul subdivision. The present condition is good.

Add for Cooch Bihar.	32,543	20,203	None ..	Beginning of April. Normal.	The decrease in area is due to unfavourable weather at sowing time. The plants could not thrive well, owing to unfavourable weather. Excessive early rains damaged the crop by about 15 per cent. The present condition is fair.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1925.

NOTE.—On an average of the five years ending 1922-23, the area under jute to which the Bihar and Orissa forecast relates represents about 7·3 per cent. of the total area under jute in British India.

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—The estimated area sown during the current and four preceding years in round numbers is given below :—

Year.	Acreage.
1921	108,400
1922	160,000
1923	223,200
1924	212,200
1925	258,200

3 **Weather conditions.**—In March light rain fell in the jute districts, except Muzaffarpur; the fall was below the normal everywhere, except Bhagalpur and the Santal Parganas, where it was above the normal. In April the fall was in excess of the normal everywhere and in May rainfall was below the normal everywhere, except in Champaran and the Santal Parganas, where it was above the normal. In June the rainfall was good in all jute districts, except Champaran and Muzaffarpur, where it was light.

4. **District returns.**—The total area under jute, as reported by District Officers, is estimated in round numbers at 258,200 acres as against 212,200 acres of last year. The increase in the area sown this year was mainly in Purnea, where it is attributed to timely rainfall and high prices of jute obtained last year. The cultivation has been further encouraged by handsome advances given to the cultivators by the traders. There have been slight decreases in area in Champaran, Muzaffarpur, the Santal Parganas and Balasore. In the last named district sowing is reported to be still going on.

5. **Condition and prospects.**—The condition of the crop is good.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1924 is reported to be small.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year :—

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP IN ASSAM, 1925.

NOTE.—On the average of the five years ending 1922-23 the area under jute in Assam represents 4·9 per cent. of the total area under jute in British India.

Character of the season.—The character of weather has not been favourable for the sowing and growth of the crop. On account of excessive rainfall some damage in low lands by floods has been reported from most places. The present condition of the crop is not satisfactory.

Area sown.—As estimated by the Deputy Commissioners the total area under jute is 118,900 acres against 134,200 acres of last year.

Stock.—No jute remains from the stock of last year, except very little in the districts of Sylhet, Kamrup and Sibsagar.

**RESOLUTION ON THE ANNUAL REPORT OF THE DEPARTMENT OF
INDUSTRIES, BENGAL, FOR THE YEAR 1924.**

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Industries.

CALCUTTA, THE 16TH JULY 1925.

RESOLUTION—No. 2846 Ind.

READ—

Annual Administration Report of the Department of Industries, Bengal, for the year 1924.

DR. D. B. MEEK held charge of the office of the Director of Industries throughout the year. Mr. E. Hoogewerf officiated as Deputy Director of Industries till the return from leave of Mr. A. T. Weston, the permanent incumbent, on the 1st July 1924. Dr. R. L. Dutta held charge of the office of the Industrial Chemist throughout the year. The offices of the Industrial Engineer and the Inspector of Technical and Industrial Institutions remained vacant during the year : but since the close of the year steps have been taken to fill both the posts.

A decision was reached during the year on the recommendations of the Bengal Retrenchment Committee regarding the superior posts of the Industries Department. After careful consideration Government have decided to retain the pay of the posts of Director of Industries and Industrial Chemist so long as they are held by the present incumbents. With regard to the post of Deputy Director, it has been decided to retain the post provisionally for one year more and to reconsider the question of its ultimate retention at the close of the present financial year. It has been decided to retain the post of Industrial Engineer on its present pay.

In the absence of an Industrial Engineer and Inspector of Technical and Industrial Institutions, the Department had to work under great difficulties with a depleted staff, but it is hoped that with the appointment of these two officers the activities of the Department will now be carried on with full vigour.

In spite of the difficulties mentioned, however, the report discloses a record of useful work done by the Department during the year in all branches of its activity.

2. Research.—The experiments on the damp-proofing of match composition were continued with the help of a special grant made by Government for the purchase of additional chemicals and apparatus. Arrangements have been made for systematic researches on the manufacture of glass and sugar, while interesting results were obtained from the experiments on the damp-proofing qualities of glues which will shortly be embodied in a bulletin for the information of the public. The research work conducted at the Calcutta Research Tannery was of special interest and comprised a variety of subjects including tannage of sole leather, manufacture of box sides from dry-salted cow hides and the tannage of lizard skins. The investigation conducted with dry-salted hides from the districts of Rangpur and Dinajpur brought to light the interesting fact that although these hides were otherwise of excellent quality their value was seriously impaired by the presence of pox marks which was almost universal. The Director of Industries has laid stress on the urgency of freeing the cattle of the province from pox as the prevalence of this disease, besides being highly detrimental to the agricultural industry, seriously impairs the economic value of the hides of the cattle. The Governor

in Council trusts that these considerations will impress the public with the importance of preventive inoculation of the cattle throughout the province. A process was worked out during the year for tanning lizard skins and steps were taken to introduce it among the local tanners.

Much inconvenience has been hitherto felt owing to the absence of a separate laboratory for industrial research. This defect will be removed on the completion of the Industrial Research Laboratory building which is now in course of construction and where industrial problems relating to the utilization of raw materials and manufacture of finished products will be investigated on a semi-manufacturing scale and demonstration in the improved processes of manufacture given to the industrialists interested.

3. Propaganda and Demonstration.—A series of interesting demonstrations were given at various centres in the province in improved methods of weaving and tanning by the demonstration staffs attached to the Serampore Weaving Institute and Calcutta Research Tannery. As a result of these demonstrations, improved methods of tanning, silk-weaving on fly-shuttle looms and the use of the country dobby for the ornamentation of the fabrics as well as of the vibrating box looms were introduced in many villages, while jute-spinning and weaving with hand machinery were introduced in the jute-growing districts as a profitable subsidiary occupation. The exhibits of the Calcutta Research Tannery, especially the tanned lizard skins, are reported to have attracted much attention at the British Empire Exhibition at Wembley and the Director of Industries expects that the participation of the tannery in the Empire Exhibition will result in the establishment of business connections between the leather trades in India and the United Kingdom. The Governor in Council attaches much importance to the attempts which are being made by the Department to introduce improved methods of weaving with fly-shuttle looms and other small scale industries among the Santals in Western Bengal with the object of improving their economic condition, and trusts that this work will be continued and expanded. The Calcutta Research Tannery provided special facilities for the training of apprentices and it is satisfactory to note that several of the apprentices, on completion of their course of training during the period under report, have started business concerns of their own.

A pamphlet published by the Department on the installation of small weaving factories is available for purchase and a vernacular pamphlet on the improvement of the manufacture of shellac is being distributed gratis.

4. Technical assistance and advice to industrialists.—The Governor in Council have perused with much interest the record contained in the report of the assistance rendered by the Department to industrialists and manufacturers with technical advice and information, by putting manufacturers and suppliers of raw materials in touch with one another and by helping manufacturers in choosing suitable machinery and in finding a market for their products. Valuable assistance was rendered to many industrialists in the matter of provision of coal wagon facilities, reduction of railway freight charges and the recommendation of their products to various Government Departments. It is gratifying to note that the Industries and Co-operative Departments worked in collaboration in successfully organizing co-operative Societies among the braziers in Brahmanbaria in the Tippera district and the sun hemp (rope) manufacturers of Pathantuli in the town of Chittagong. Government trust that further progress will be achieved in the direction of organizing co-operative societies among artisans and industrialists in the current year.

5. Industrial survey.—An interesting report on the survey of cottage industries was published during the year. A survey of hides and skins available in the province has been undertaken for the purpose of ascertaining their leather-making properties.

6. Unemployment Committee.—The Bengal Unemployment Enquiry Committee was appointed by Government with the Director of Industries as Chairman in pursuance of a resolution moved in the Bengal Legislative Council in 1922 to investigate the problem of unemployment among the educated middle-class Bengalees and to suggest remedial measures. Subsequently,

the scope of the enquiry was widened so as to include an investigation into the question of unemployment among Anglo-Indians. The Committee's report was published in the *Calcutta Gazette* at the end of the year of report. The recommendations made in the report are receiving the consideration of Government.

7. State aid to Industries.—The Director of Industries has again laid stress on the fact that progress in the direction of the establishment of small industries and provision of machinery on the hire purchase system in Bengal is hampered in the absence of legislation for State aid to small industries. The Director of Industries has been asked to re-examine the proposed State aid to Industries Bill with a view to its further simplification before it is finally considered by Government.

8. Technical education.—The total number of technical schools—public and private—in the province at the close of the year was 96 as against 93 and the number of pupils 5,061 against 4,039 in the previous year. The total expenditure on these schools was Rs. 6,71,423 against Rs. 5,73,805 in the previous year. Of this sum, Rs. 2,39,753 represented contribution from provincial revenues and Rs. 80,595 was contributed by district and municipal funds. The fee receipts amounted to Rs. 51,595. A sum of Rs. 5,750 represented endowments, while other private sources accounted for Rs. 2,93,730. The total number of purely Government institutions was 28, the chief among them being the Serampore Weaving Institute and the Mainamati Survey School. Government share the Director of Industries' regret that for want of funds applications of several technical schools, which are in need of Government aid, could not be entertained and many applications from deserving students for technical scholarships had to be refused. The Bengal Retrenchment Committee suggested that the four technical schools at Barisal, Pabna, Bogra and Rangpur should be deprovincialized and that technical education should be stimulated by Government by the grant-in-aid system. The principle involved in this recommendation is still under the consideration of Government and a decision is expected to be reached shortly. In the meantime it is satisfactory to find that the District Boards of Mymensingh, Tippera and Nadia have evinced a forward policy in the matter of allotting funds for technical education. The Mymensingh District Board has utilized the expert advice and the grant-in-aid available from Government to equip its technical school with power-driven machinery and well-planned workshops. The Tippera District Board is reported to be contemplating a similar progressive policy, while the Nadia District Board is building a local technical school with the object of giving training in the use of oil-engines, power-driven pumps and machinery, both wood and metal-working, motor-cars, wheel and coach-building, electric light, plant, etc. Good work is also reported as being done by the Industrial School at Faridpur under the Australian Baptist Mission with the help of the grant-in-aid and expert advice from Government. The Governor in Council hopes that other District Boards in the province will follow the example set by the Boards mentioned above and that an improvement in the financial situation will enable Government to help the technical schools in the province more adequately than it has been possible to do in recent years.

9. State Technical Scholarships.—No State-scholarships were granted during the year of report. During the current year it is proposed to depute two technical scholars for training in glass industry in the Sheffield and Pittsburgh Universities for a term of three years. The question of framing in advance a programme of subjects arranged in order of urgency in which foreign training is necessary in the interest of the industrial development of this Presidency is now under the consideration of Government.

In consideration of the annual grant-in-aid of Rs. 10,000 paid by Government to the Jamshedpur Technical Institute, six students from Bengal were admitted into the Institute during the year of report.

10. Calcutta Technical School.—The Bengal Unemployment Committee laid stress on the importance of opening the Calcutta Technical School as

early as possible. It is proposed to open the school on the 1st of January next. Government have already spent a sum of Rs. 11 lakhs in land acquisition and building construction for this school. The building has been completed, but it has not been possible to open it owing to difficulties arising out of the contributions for the recurring expenditure involved. The scheme for the school, as drawn up by the Special Committee, contemplated an annual grant of Rs. 50,000 from Government, Rs. 20,000 from the Calcutta Corporation, Rs. 10,000 from the Port Commissioners and Rs. 3,000 from certain engineering firms. The Port Commissioners have promised an annual grant of Rs. 100 per student which will be roughly equivalent to Rs. 2,000 a year and certain engineering firms have also guaranteed their share of Rs. 3,000 per annum. Negotiations with the Calcutta Corporation regarding the annual grant of Rs. 20,000 expected from that body have, however, been protracted owing to the conditions put forward by the Corporation being unacceptable to the Governing Body of the school. Negotiations between the Corporation and the Governing Body of the school are still in progress. In view, however, of the urgency of starting the school without further delay, Government have decided to make arrangements to open the school from the 1st of January 1926. The Governor in Council hopes, however, that the Calcutta Corporation will come to an early decision regarding the payment of their contribution to this important institution as, if their assistance is not forthcoming, the scope of the school will, through lack of funds, have to be restricted to mechanical and electrical engineering only.

11. The Governor in Council records his appreciation of the efficient administration of the Department by Dr. D. B. Meek and Mr. A. T. Weston and of the valuable services rendered by Dr. R. L. Dutta, the Industrial Chemist, and Mr. B. M. Das, Superintendent of the Calcutta Research Tannery. His Excellency in Council also takes this opportunity of gratefully acknowledging the advice and assistance received from the members of the Advisory Board of Industries and other Boards and Committees connected with the Department.

By order of the Governor in Council,

G. S. DUTT,

Secretary to the Government of Bengal.
